BIO
(Background Information for Instructing Parties)

Medical Experience

I was appointed in 2003 as a Consultant Orthopaedic and Trauma Surgeon at York Teaching Hospital NHS Foundation Trust after completing my CCST on the West Midlands Trauma & Orthopaedic Rotation. I have a busy general orthopaedic practice including both elective lower limb arthroplasty and general trauma, as well as being an

Independent Medicolegal Expert, offering clinics in York, Leeds, Hull, Middlesbrough, Bradford, Birmingham, Harrogate, London and Wakefield, Sheffield and Oxford.

I have held positions as:
Clinical Director of Trauma and Orthopaedics at York Teaching Hospital NHS Foundation Trust.
Deputy Training Programme Director Trauma & Orthopaedics, Yorkshire & Humber, Health Education, UK
Orthopaedic Advisor to Orthopaedic Companies - LIMA Ltd, Biomet & DePuy Johnson and Johnson.
Nuffield Health Medical Advisory Committee.

I have been undertaking medico-legal reports since 2001 and currently do between 300 and 400 reports a year.

1989	MBChB (Sheffield University)
1996	FRCS (Edinburgh)
2000	Diploma in Orthopaedic Engineering (Cardiff University)
2001	FRCS (Trauma and Orthopaedics)
2002	Advanced Trauma Life Support Provider

Medico-Legal Experience

I have undertaken medicolegal work since 2001 and have attended numerous medicolegal courses to keep myself up-to-date. My Medco accreditation has also been renewed. I have been preparing medico-legal reports since 2001 and currently perform 300 - 400 reports per year.

I am instructed for 30-50 medical negligence cases per year and was last in Court (successfully) in October 2020.

Report ration is 80% for plaintiff, 10% joint instructions, 10% for defendant. I have also attended seminars relating to medico-legal reporting in Warwick and London.

I undertake any form of personal injury work, and I am happy to undertake domiciliary/prison visits.

I aim to see patients within 4-6 weeks and have the completed report returned within 7 to 10 working days, on average – documentation permitting.

I am happy to provide an online booking service and can return reports electronically if acceptable.

I am also happy to undertake clinical negligence and complex specialist injury/orthopaedic cases

I am happy to see patients with general trauma and orthopaedic conditions, including back pain, whiplash, arthritis, post fracture of bones/soft tissue injuries, or complications of such injuries.

I see patients with upper limb injuries, repetitive strain injuries to the upper limb, neck and back, and low-velocity injuries.

My area of special interest is trauma, lower limb reconstruction, spinal injuries, work-related injuries and orthopaedic problems in the young patient.

I speak Urdu, Hindi and Punjabi.
