SPECIAL INTERESTS:

Clinical Negligence, Cosmetic and Aesthetic Surgery, Musculoskeletal trauma, Melanoma, Skin Cancer, Hand Surgery, Breast Reduction and Augmentation, Facelift, Blepharoplasty, Scarring and Trauma, Paediatrics.

QUALIFICATIONS:

Qualified at: Manchester and Canada

Qualifications: MB.CHB.BSc.LMCC.FRCP(C).FRCS(C).FRCS(Ed) PLAS

I trained in Manchester Medical School achieving the Degrees of Bachelor of Medicine, Bachelor of Science and Bachelor of Surgery in 1984. I then moved to Canada where I achieved Royal College of Physician Standing in Paediatrics and General Medicine before moving into the surgical specialties where I achieved Royal College Standing in General Surgery and then Royal College Certification in Plastic Surgery. I was a Fellow in the Hospital for Sick Children in Toronto as well as Fellow in McMaster University in Hamilton, Ontario. I then was a Consultant for three years in Prince Edward Island on the East Coast of Canada before moving back to Great Britain where I was a Fellow at St James' Hospital in Leeds in hand surgery and then a year as a Senior Registrar in Hull. I passed the Royal College of Surgery exam with a Specialist Certificate in Plastic Surgery in September 1998 and am a fully accredited Plastic Surgeon on the Specialist Register at the General Medical Council. I am an Examiner for The Royal College of Surgeons of Edinburgh at MRCS level in General Surgery as well as Anatomy. I am on the panel for accreditation and development of MRCS OSCE questions at The Royal College of Surgeons of England. I am a full member of BAPRAS.

As of March 2020, I became a full time Emergency department physician currently working in North Tees Hospital as an Associate Specialist in emergency medicine with recognition from the Royal College of Emergency medicine granting me full membership MRCEM.

In 2014 I attended the full course Cardiff University Bond Solon certification for Experts.

I have been a member of the Medical Advisory Committee in Hospitals in Canada and the UK, both privately and in the NHS. I have been present at the discussion of Practice Privileges and have been privy to changes in policy within hospitals that practice privilege rules and regulations. I am fully

competent and aware of the requirements according to the appropriate Acts and good medical practice under the General Medical Council with regards to hospitals. However, having said that every hospital is different, they have their own rules and regulations and I can merely only comment on the best practice privileges and not on any legal precedence or legal positions and I will refrain from commenting in that manner.

Additional Medico Legal qualifications:

Membership of Medico Legal organisations:

CPD points in expert evidence:

Medico Legal training courses attended:

- 22.6.10 Successfully attended and completed Medico-legal Expert Witness Course provided by SpecialistInfo.com - ***Specific and appropriate training in duties and requirements of medico-legal expert witnesses***
