PUBLICATIONS / RESEARCH

An audit of early wound infection after elective orthopaedic surgery.

Journal of the Royal College of Surgeons of Edinburgh; April 1996; **41**[2]:129-132

Tension Pneumothorax after Intercostal Drain Insertion

Journal of Accident & Emergency Medicine; March 1998;**15**[2]:128

Journal Scan

Journal of Accident & Emergency Medicine January 1998;**15**[1]:65-67

Complications of Tube Thorocostomy in Trauma

Journal of Accident & Emergency Medicine March 2000;**17**[2]:111-115

Completeness of recording clinical information and diagnostic Accuracy of ambulance crews using scanned patient report forms

Pre-Hospital Immediate Care 2000;**4**:143-147

I have been a member of the Emergency Medicine Journal Editorial Advisory Committee for over 25 years

AUDIT

During my time as a Registrar and Senior Registrar I was regularly involved in intradepartmental audit. Specifically, I have audited the management of Cardiac arrest, Asthma, Myocardial Infarction, and Head Injury within the A&E Department. I also audited the admissions to the A&E short stay ward, intercostal drainage following trauma, and ICU admissions from A&E.

As a Consultant I supervise 1/2 audit projects/annum and maintain active autonomous audit practice. I undertake one of the designated RCEM national audits every year.

TEACHING

I regularly instruct on ATLS courses throughout the UK. Within the department I have organised and delivered lectures to the ED junior doctors, Senior Staff and Nurses. Outside the department I have taught Hospital Doctors of all grades, G.P's, Paramedics, Nursing and Pharmacy staff. I have also been involved in examinations for Medical Students, Paramedics, and Nurses on the Nurse Practitioner Course.

I have lectured on the Part 3 FRCS General Surgery Course at St Thomas's on "Recent Advances and Controversies in A&E regarding General Surgery".

I have been an Examiner for the MCEM examination since 2008

PRESENTATIONS

25th September 1998 - "The problem with Chest Drains" The Heart of the Matter
The Royal Society of Medicine
London

16th September 1999 - "Legislation and Injury Prevention" British Paediatric Association
A&E Division
Derby

CAREER PLANS AND PRESENT ACTIVITIES

I was appointed to the post of Lead Consultant in Accident & Emergency at the Chesterfield Royal Hospital NHSFT on 1st September 1998. I became Clinical Director of the newly formed Emergency Care and Orthopaedic Directorate in 2003. After a structural reorganisation in 2017 I was appointed Clinical Director of the Acute Care Unit. My specific responsibility was the management, strategic planning and development of the ED, EMU, Short Stay Ward and Frailty Unit in conjunction with the Medicine/ED Divisional Management Team. I led the Urgent Care Village Project until 2019 as well as developing and reviewing the clinical policies and protocols within the ED. I represented Emergency Care at the Divisional Board and Urgent Care Steering Group . I Chaired the Trust Trauma Committee and ACU Operational & Strategic Meeting. I represented Emergency Care at liaison groups with Pathology, Imaging and Stroke. I led the development of the Clinical Decision Unit [CDU]. I represented the Trust at the East Midlands Trauma Network Clinical Advisory Group and the North Derbyshire/South Yorkshire Acute Care Strategic Review Board. I resigned as Clinical Director in December 2019 and now concentrate on clinical and medicolegal work.

I continue to instruct on ATLS courses and have instructed on a course in Cape Town, South Africa. I have been accepted as an examiner for the MCEM examination and have examined since 2008.

I sat on the Board of the Royal College of Emergency Medicine as the East Midlands representative for 4 years and am a member of the Editorial Advisory Board of the Emergency Medicine Journal.

I am an Expert Witness in Emergency Medicine/Trauma and have an extensive Medicolegal practice preparing >100 reports each year since 2000. The reports cover personal injury, medical negligence and criminal cases for the Police/CPS. I have undertaken training in report writing and giving Expert Witness evidence in Court. I attended Court as an Expert Witness several times each year. My work as an expert witness has been recognised by the award of 'Expert Witness of the Year Trauma Cases' by Corporate International and Global Advisory Experts for successive years from 2020-2024.

In 2020 I became Clinical Director of Genome, a health IT start-up based in Sheffield who develop digital systems for use in health care.
