MEDICAL EXPERIENCE:

I was appointed as Consultant Ear, Nose and Throat surgeon at the Royal Alexandra Hospital in Paisley in 1998 and became Consultant at the Victoria Infirmary and Southern General Hospitals in Glasgow in 2000, having followed an approved training program resulting in full accreditation in the specialty in 1997. During the course of my training I was visiting lecturer and Assistant Professor at the Prince of Wales Hospital, Shatin, Hong Kong from July 1997-June 1998.

In my current post I am responsible for patients suffering from the whole range of conditions affecting the ears, nose and throat, but my main areas of practice are otology (ears and hearing) and rhinology.

MEDICO-LEGAL EXPERIENCE:

I have been providing expert reports for over fifteen years. My main area of report writing includes:

Noise Induced Hearing Loss,

Other claims relating to hearing loss, tinnitus and dizziness,

Claims relating to nasal trauma
