Medico-Legal Experience

I have been involved in medico-legal work over the last fifteen years and have prepared reports on cases of personal injury and medical negligence in relation to general and colorectal surgery. I prepare 30-40 reports each year with my work being 80% claimant, 20% defendant. Until 2021 I was a Medical Assessor for the GMC Fitness to Practice process and a member of the Invited Review Panel of the Royal College of Surgeons of England.
