CAREER ASPIRATIONS

I continue to develop my interest and competency in all aspects of Foot & Ankle surgery. To expand my wide experience in routine forefoot and hind foot reconstructive surgery and maintain a special interest in ankle and hind foot arthroscopic surgery, including tendoscopy.

I routinely perform Ankle and MTP replacement surgery and tendon transfers. I also undertake deformity correction procedures with frames and maintain an active interest in Ilizarov techniques of transosseous osteosynthesis.

To continue to develop my competencies in all aspects of general Orthopaedic trauma, in particular my special interest in peri-articular and peri-prosthetic fractures of the lower limb and complex foot& ankle injuries.

I have an active interest in limb salvage for major lower limb trauma and work closely with my plastic surgical colleagues.

To continue my active involvement in research and teaching. I have presented in both BOFAS & AOFAS, and have been awarded a BOFAS research grant. I have also won numerous research prizes.

I have lectured and conducted teaching and training events for a variety of audiences and am currently on the faculty of F&A instructional courses, and on the AO faculty for trauma courses.
