LEADERSHIP & MANAGEMENT

Squadron Leader RAF Reserves • 4626 Aeromedical Evacuation Squadron • RAF Brize Norton

I am a senior officer on the Squadron, which provides trained medical personnel for operations requiring aeromedical evacuation in times of conflict or crisis. I undertook my initial officer training alongside regular RAF officers and graduated from RAF College Cranwell with Merit in December 2013.

Following the successful completion of my training, I became Officer in Charge of the training flight and a member of the Executive Committee responsible for organising the two hundred regular RAF personnel and reserve nurses, paramedics and doctors that make up the Squadron.

**CHARTERED INSTITUTE OF MANAGEMENT, in association with the ROYAL AIR FORCE
MCIM – CMI Level 5 Management and Leadership**
