Practice manager: Sonal Mistry

Email: [mistry.son@gmail.com](mailto:mistry.son@gmail.com)

## Clinical Duties:

I am a Consultant Renal Physician in one of the largest renal units in the country. As lead clinician for dialysis, I manage of programme of 1300 patients.

My inpatient clinical responsibilities include being on the acute on call rota (1 in 5), looking after patients in the wards and the renal high dependency unit. My outpatient responsibilities include looking after 100 haemodialysis patients and general nephrology /CKD clinics. I have a specialist interest in Lupus with kidney disease, Vasculitis and managing patients with diabetes following kidney transplantation.

I also undertake diagnostic kidney biopsies.

## Medico-Legal Practice

I commenced undertaking medico legal work in June 2015 and have completed reports on behalf of the defence.

I have joined the faculty of expert witnesses (FEW), following completing the Clinical negligence course in February 2017 (London).

The waiting time for appointments is less than one week and I deliver the report within 4 weeks. Home visits can be undertaken at the request of the solicitor.

I would be happy to furnish references from solicitors if required.

## Special interests:

Renal Medicine (Nephrology), Renal Transplantation, Systemic lupus erythromatosis (SLE) with renal disease, Vasculitis, Hypertension and CKD
