Dear Dr Nawaz

[REDACTED]

I write to confirm the outcome of the finding of fact hearing in relation to [REDACTED]

The court determined that [REDACTED] bruises were caused intentionally or recklessly by one of the parents.

DJ Parker described you as an “impressive witness” and said that you were even handed.

In my submissions I also said that you were an impressive witness and you were clear about your conclusions whilst also remaining open minded to the questions put to you. Further, you were willing to give evidence based on your own experience which many paediatricians shy away from.

I have found you very easy to work with and was impressed by your report and evidence, as was the children’s guardian.

Many thanks for your assistance in this matter.

Please let us have your invoices for your attendance at the hearing.

I look forward to working with you again in the future.

Kind regards

Lucy Fisher

Dear Dr Nawaz

I apologise for the delay in replying to you for feedback on your report in the above case

I understand from a barrister that your report was well received by the advocates and the judge and that the Lay parties had also been able to understand the contents of your report. The Judge was impressed with your evidence and your delivery of the evidence and also appreciated your input into the expert meeting which had narrowed the issues and had given everyone a clear path, on which the incident had taken place.

I hope this feedback is helpful and I hope to work with you again very shortly

STEPHEN SOWDEN
