#### (v) Education & Teaching

As **Royal College of Surgeons National Tutor in Cardiothoracic Surgery (2004-2009)**, I was responsible for developing all educational courses in the speciality. These included:

- **Core skills in Cardiothoracic Surgery (for the new curriculum)**
- **Intermediate Cardiac Surgery (HST Course)**
- **Surgical approaches to Atrial Fibrillation**
- **Bypass, Balloon pumps and circulatory support**

#### (vi) Operative Experience

As a Consultant Cardiac surgeon, I have performed over 3000 major cardiac or aortic operations. My key specialist interest within the field of adult cardiac surgery is aortic surgery.

#### (vii) Communications

I have a large number (>100) of publications and presentations, both locally and nationally, as well as a published **MD Thesis (Univ. London 2001)**.

#### (viii) Medico-Legal

I have been performing medico-legal work since 2005 and have considerable experience in this field. I am qualified to take instructions across a wide range of cardiothoracic conditions including pre-operative, operative and post-operative care.

I have a particular specialist interest in chest trauma and cardiothoracic injuries related to this. I am prepared to see clients across the UK and also offer tele-consultation if preferable.
