

Mr Frank Sibly MA (Oxon), MB BS Lond, FRCS England,

I am a Consultant Orthopaedic and Trauma Surgeon, with sub-specialty field of shoulders and hands.

I trained at Oxford and London, with Senior Registrar post in the Derby Hand Unit.

I have also had extensive training in medicolegal reporting, and provide about 130 reports per year for the last several years. I regularly participate in CPD, particularly the annual congress of the British Orthopaedic Association.

I have appeared in Court a few times as an expert witness, and have meetings with barristers on several occasions to discuss cases, and occasionally produce joint reports with the opposing expert.
