Mr Khan qualified from Kings College Hospital in 1994. After completing his basic surgical training he went on to complete his specialist training in trauma and Orthopaedics and undertook fellowships in Knee and Shoulder surgery in the UK, France, Belgium and the USA.

He was appointed as an NHS Consultant in 2010 and subsequently left the NHS in 2018. He continues to see NHS and private patients and treats a high volume and variety of simple and complex knee and shoulder injuries.

Mr Khan has written over a 1000 medicolegal reports. He continues to keep abreast of changes within this field by attending formal training and update courses.
