MEDICOLEGAL EXPERIENCE:

I am preparing medical reports from 2007.

Most instructions are from claimant's solicitors.

I prepare 50-60 reports per annum. 70% are personal injury and 30% clinical negligence and complex/serious injuries.

I have prepared reports for Criminal Injury Compensation Authority (CICA).

I have attended court twice to provide expert evidence and once to GMC MFTP Panel hearing to provide expert evidence.

For the avoidance of doubt, Dr Sharma is instructed as principal and not as an agent for your client. Appointment time is 6-8 weeks from receipt of instruction with agreed fee. Subject to the timely provision of information, medical report in response to instruction will be delivered to the appointer within three weeks of examination if fee for report has been received in full.

A fee for medical report is due in advance or within 30 days following submission of invoice. Commissioning Solicitor/agency is responsible for fee.

CLINICAL EXPERTISE

I assess about 600 New Chronic pain patients every year. I have special interest in multidisciplinary and interventional management of Cancer pain, Neuropathic pain, Trigeminal Neuralgia, spinal pain including sciatica, whiplash, and personal injuries including road traffic accidents and Neuromodulation for chronic pain.

TEACHING/TRAINING/EXAMINING

I have lectured nationally and internationally about pain related topics. I remain active in training and education. I am Examiner for Faculty of Pain Medicine of The Royal College of Anaesthetists, London for award of FFPMRCA since the start of this exam (2010).

RESEARCH/PUBLICATIONS

I have many research projects active and have over 50 publications in peer reviewed journals over last 10 years. I have been expert Pain adviser to NICE to contribute to two Guideline development groups.

OTHER PROFESSIONAL ACTIVITIES

Pain Neuromodulation and Cancer Pain Management lead for The Walton Centre Pain service (National tertiary care pain unit)

Invited Faculty for European and UK Cadaver hands on courses for spinal and facial pain interventions including neuromodulation.

Edited BMA Book of the year 2015 "Practical Handbook on Management of Complex Cancer Pain" (Oxford University Press)

Many publications, book chapters and presentations in National & International Pain meetings.
