CAREER STATEMENT

Professor Xavier Griffin is a leading consultant trauma and orthopaedic surgeon based in London, Oxford and Banbury. He holds the inaugural Chair of the new clinical and academic collaboration in orthopaedic surgery at the renowned Barts and The London School of Medicine. He is a consultant orthopaedic surgeon, with a pelvic, acetabular and hip reconstruction / replacement interest at the Royal London Hospital, the largest, busiest and first ever Major Trauma Centre in the UK.

His areas of expertise are broken bones and muscle injuries in adults and children, hip replacements, and hip reconstruction following traumatic injury. He is a national specialist in the treatment of severe injuries of the pelvis bone and hip socket. He is currently based at the Nuffield Health Oxford Manor Hospital, The New Foscote Hospital and Royal London Hospital, Barts Health NHS Trust.

After completing his undergraduate degrees at Cambridge and Oxford Universities in 1999 and 2002, Professor Griffin went on to do ten years of trauma and orthopaedic training in both Bristol and West Midlands. Following this he underwent internationally recognised fellowship-level training at the Royal Melbourne Hospital, Victoria, Australia. He was trained by world-leading experts in the treatment of broken bones and hip replacement, particularly in the treatment of the pelvis and hip socket.

For his PhD, Professor Griffin investigated the causes of pain in musculoskeletal disease and to date he leads on the conduct of nationwide research studies and clinical trials. He is also involved in education, supervising students working towards training in orthopaedic surgery.

I am an expert witness for orthopaedic trauma, specialising in high energy injuries, polytrauma, pelvic and acetabular fractures and amputations and elective reconstruction of the hip joint.

EMPLOYMENT HISTORY

CURRENT APPOINTMENTS

Chair of Trauma & Orthopaedic Academic Group, Queen Mary University of London

Honorary Professor of Orthopaedic Trauma Surgery, University of Oxford

TEACHING & TRAINING

ATLS INSTRUCTOR

I am an ATLS Instructor and have taught on a UK based ATLS Provider Courses.

ACADEMIC SUPERVISOR

I was supervisor for several MSc students for the University of Warwick, each of whom were successfully awarded their degree. This involved supervision of the preparation of short module coursework and more wide ranging professional projects.

I am shortly to begin supervising two PhD students at the University of Oxford. I have arranged for appropriate mentoring from the Graduate School to support my development as a doctoral student supervisor.

MASTERS LEVEL POSTGRADUATE AWARD

I have completed a postgraduate award in Medical Education at The University of Warwick.

ANATOMY DEMONSTRATOR

I have taught medical students during dissection and tutorials. I also taught a range of other health professionals in both topographical and radiological anatomy.

CADAVERIC SURGICAL COURSES

I am a course convener for a cadaveric surgical course focused on hip arthroplasty. This course is intended for all UK trainees and provides an environment and faculty where they can explore and learn the classical approaches to the hip and implantation of a range of prostheses.
