| The General Infirmary at Leeds | House Officer (General medicine) | Aug 1979 | Feb 1980 |

Description of Duties and Activities

I retired (March 2015) as a Consultant Medical Microbiologist responsible for giving a clinical microbiology service for patients of University Hospital Aintree which has most specialties served by 926 acute beds, the Walton Centre Foundation Trust (for Neurology & Neurosurgery (160 beds) and local General Practitioners. I also supported the needs of Health Protection England particularly in community based outbreak investigations e.g. food poisoning.

The laboratory is a former regional Public Health Laboratory which has been managed by Aintree Hospitals NHS Trust since April 2003 and now part of Liverpool Clinical Laboratories which is a joint venture between Aintree Hospitals and the Royal Liverpool Hospital. This large joint laboratory has a workload of more than 120000 bacteriology and 170000 Virology specimens with the bacteriology specimens derived from Primary Care and local hospital trusts The Virology derives from Merseyside and parts of Cheshire. I have been mostly involved in giving advice on bacteriological infections and hospital infection control but also support the needs of the Virology part of our service as appropriate. The laboratory provides a comprehensive rapid tuberculosis isolation service for many laboratories in the North West and again I give appropriate medical advice as required. I served as head of the Clinical Microbiology & Health Protection Agency Collaborating Laboratory since July 2003 until July 2012,

Up until my retirement I was Deputy Director of Infection Prevention and Control for The Walton Centre and also act as an infection control doctor at University Hospital Aintree. I was involved in producing an Annual Report for the infection Control Team which is presented to the Trust Board. Infection Control Team meetings are held with the infection control nurses and the annual work programme is followed. I would undertake selected patient ward reviews in patients with serious infections or for the investigation of infection control problems. I performed a weekly collaborative antibiotic ward round in conjunction with a neurosurgeon and pharmacist reviewing all neurosurgical inpatients on antibiotic treatment.

I was clinical supervisor of 2 specialist registrar training posts in Medical Microbiology in the department.

I was a tutor for the MRCPATH postgraduate course for trainees in medical microbiology, Liverpool deanery.

Began in 1994 and initially aimed only at Sefton Health Authority practices I have worked on “Antimicrobial Guide and Management of Common Infections in General Practice for Primary Care” available to practices throughout Merseyside.

From 1999 until 2012 I was elected Convener & Chair of the Mersey Deanery/Lancashire and Cumbria Medical Microbiologists audit group which has about 44 members.

In August 2012, I reduced my NHS commitment to 5 programmed activities i.e. half time, and retired from NHS practice in March 2015. I continue to work in medico legal cases and providing reports to The Coroner. I have appeared in Court to give evidence as an expert witness on several occasions. I confirm that I am a fully registered practitioner of good standing and that I continue with my registration with the GMC.

Medical Committees: Hospital Trust, Local and Regional

1. Mersey Deanery Pathology Training Sub-Committee, Member
2. Walton Centre Control of Infection Committee, Co-Chair
3. Aintree Hospitals District Ethical Committee, Member (1989-1996)
4. Clinical Microbiology Department Management Team, Chair (2003-2012)
5. North West Regional Medical Microbiologists Committee, Secretary, Chair
6. Continuing Professional Development Committee of Royal College of Pathologists Mersey Deanery, Member (1995-2001)
7. Aintree Hospitals Control of Infection Committee, Member (1987-2002), Chair (1994- 2001)
8. Mersey Deanery Medical Microbiologists Audit Group, Chair/Convener (1999-2012)

Membership of Outside Bodies / Societies:

1. Independent member of Cheshire Police Authority (October 1994 - August 1998) Liverpool Jewish Medical Society, *Secretary* (1988-2002), *President* (2003-4)
2. Royal College of Pathologists North West Regional Council, *Elected Member* (2002-4)
3. Association of Clinical Pathologists North West Branch, *President* (2004-6)

Medico Legal experience

I have extensive medico legal experience developed since 1999 in preparing reports for both Defendant and Claimant, with an average of about 50 reports per year. I have given evidence for the Court on 6 occasions. I have attended a medico legal training course (Bond Salon 3 day residential course including one day on report writing and 2 days on courtroom/cross examination skills - 17 January 2001). I have been an invited speaker at seminars for the legal profession and recently presented at the AVMA “Medicolegal Issues in Accident and Emergency Care”, conference held on 5 February 2020 in Manchester.

A Review of Central Line Related Sepsis in Neurointensive Care Patients Dr E Doorley Dr P Nair, Dr A Sule, Dr M Rothburn. International Intensive Care meeting, Spain (2008)

Review of central venous catheter-related infections in neurointensive care patients in a tertiary referral centre. C Tan, P Nair, A Sule and M Rothburn. 30th International Symposium on Intensive Care and Emergency Medicine Brussels, Belgium. 9-12 March 2010

Surveillance of Neurosurgical Site Infections between January 2005 and December 2009. A Hart-Pinto, P. Kane, D.D.A.Lawson & M.M. Rothburn. Federation of Infection Societies (FIS), Manchester (November 2011)

Cerebrospinal fluid (CSF) drain associated infections in neurosurgical patients – incidence, organisms and risk factors. Rasheed Zakaria, Swagata Tripathy, Mike Rothburn, David Lawson. Federation of Infection Societies (FIS), Manchester (November 2011)

Oral Presentations at Regional Meetings

North West Infection Control Teams Regional Meeting on Medical Negligence in Infection Control Organised and Hosted by myself at University Hospital Aintree and presented “The Case of The Retained Prosthetic Device” (May, 1999)

“An Outbreak of Gastroenteritis caused by Norwalk Virus affecting Acute Admission Wards at University Hospital Aintree” Presented to North West Branch Association Clinical Pathologists (May, 2001)

“Some important Public Health measures pioneered in Liverpool over the past 150 years” Presented to Liverpool Jewish Medical Society (March, 2009)

Oral Presentations at National Meetings

A continuing source of outbreak of Salmonella unnamed (0:23;H:i,W) associated with tripe and pigs belly caused by factory process contamination. M.M. Rothburn, E.B. Kaczmarek, R.A.E Barrell, et al. Presented at the 16th PHLS Annual Scientific Conference, Winchester (Sept, 1991).

Medical Negligence: Public Health and Control of Infection Aspects. Presented at the AVMA Medical Negligence Conference, Brighton (July, 1997)

Seminar on “The legal and human implications of MRSA” at Cleaner Hospitals Summit, London, 14-15 April 2005

Examiner

Final MB ChB examiner, University of Liverpool (until 2015)

External examiner for University of Manchester, PhD thesis; “Virological Investigation of Human Erythrovirus B19 and Neurological Disease” (September/October 2010)
