

Non-Medical Expert Information Sheet

Mobile: 07518 359977

Email: niki.lacey@nlandassociates.co.uk

I have over 20 years of experience in the automotive industry, including leading a litigation department for a major car hire company and working extensively within the care sector under both the Mental Health Act and the Mental Capacity Act.

Since 2018, I have specialised in personal transport assessments, initially with Personal Mobility Solutions Ltd and from December 2025, as an independent Personal Transport Expert Witness. I provide comprehensive transport assessments for clients with diverse disabilities and transport needs, acting on both a treating and consulting basis. My work includes Expert Witness transport reports compliant with Part 35, with referrals received from solicitors, case managers and occupational therapists.

I assess between 70 and 90 clients per year across the UK, covering both passenger and driver requirements including wheelchair accessible vehicle (WAV) solutions and complex adaptive driving needs. My reports are detailed, unbiased and evidence-based, designed to assist the court and support fair outcomes. I have been instructed on multiple high-value cases, including one that resulted in a seven-figure settlement.

In addition to formal assessments, I provide ongoing consultation on accessible transport solutions and currently manage a caseload of approximately 50 active cases. I regularly liaise with solicitors, case managers and occupational therapists to source and evaluate adapted vehicles, ensuring that each recommendation is fit for purpose and tailored to the client's functional needs.

I maintain current expertise in vehicle adaptations and industry standards, working closely with major UK adaptation companies and attending regular seminars, training days and refresher courses. My reports include full lifetime cost analysis, adaptation options and replacement cycles, ensuring long-term suitability and transparency.

I have delivered training to legal professionals, including sessions for Fletchers and Premex, and have been invited to speak at national conferences for organisations such as Medico Legal, Cloisters and Jane James & Associates. Across all work I am committed to promoting independence and enabling safe, appropriate transport solutions for individuals living with disabilities.

Average delivery time for report, 3 – 4 weeks from assessment date

Training & Experience

- Bond Solon Expert Witness Conference 2025
- Advanced Driving Instructors – Driving with Adaptions QEF 2024
