Pain Management

The Manchester and Salford Pain Centre is one of the country's leading pain management clinics. I work in an interdisciplinary team specialising in the management of many chronic primary and secondary pain syndromes, including back pain, whiplash, complex regional pain syndrome, fibromyalgia and neuropathic pain. I am the Clinical Lead for the Spinal Cord Stimulator service and medical lead for Pain Management Programmes.

Teaching

I am involved in teaching undergraduate medical students as well as postgraduate doctors, physiotherapists and nurses. I hold an MSc in medical education from the University of Manchester. I lecture on Pain Medicine for MSc courses in Musculoskeletal Pain Medicine.

Membership of Professional Societies

- International Association for the Study of Pain
- Neuromodulation Society of the UK and Ireland
- International Neuromodulation Society
- Royal College of Anaesthetists
- Fellow of the Faculty of Pain Medicine

Medico Legal Experience

I have successfully completed the Cardiff University Bond Solon Expert Witness Certificate.

Since 2013 I have written over six hundred medical reports concerning complex cases of chronic pain. I accept instructions involving pain-related cases as well as cases involving negligence related to pain medicine.

Research and Publications

I am the author of Pain: the science of the feeling brain. I have published a book chapter on the medicolegal aspects of anaesthesia and perioperative nerve injuries. I have published a series of articles on statistics and an examination handbook for anaesthetists sitting their final examinations. I am actively involved in research with regards to spinal cord stimulation. Anaesthesia chapter in: KC, Michael Powers, and Anthony Barton. *Clinical negligence*. Bloomsbury Publishing, 2023.
