DATE of BIRTH 14th December 1956

NATIONALITY British

REGISTRATION General Medical Council - Number 2651570

QUALIFICATIONS & TRAINING

- Bachelor of Medicine, Bachelor of Surgery, University of London 1980
- Fellow of the Royal College of Surgeons of Edinburgh 1985
- Fellow of the Royal College of Surgeons of England 1986
- EC Certificate of Specialisation - Gastroenterology 1993
- Master of Laws (Cardiff Law School) 1995
- Member of the Faculty of Pre-Hospital Care of the Royal College of Surgeons of Edinburgh 1996
- Single Joint Expert Training 1999
- Diploma of Forensic Medicine (University of Glasgow) 2000
- Registered with Council for the Registration of Forensic Practitioners (Number 1802) 2005-2009
- Fellow of the Faculty of Forensic & Legal Medicine (RCP) 2005
- Fellow of the Chartered Society of Forensic Sciences 2006
- Master of Science (University of Ulster) 2007
- Certificate – Drug Misuse Harm Reduction (RCGP) 2007
- Associate Fellow of the Royal College of Emergency Medicine 2009
- Certificate: Fundamentals of Medical Ethics (Norwegian Medical Association) 2011
- Certificate: Doctors Working in Prison: Human Rights & Ethical Dilemmas (Norwegian Medical Association) 2011
- Fellow of the Australasian College of Legal Medicine 2012
- Fellow of the American College of Legal Medicine 2012
- Accredited Mediator (London School of Mediation) 2012
- Specialist in Forensic & Legal Medicine – General Medical Council 2013
- Completed e-lfh training for Medical Examiner 2013
- Completed e-lfh Level 3 Safeguarding Training 2013
- Fellow of the Faculty of Clinical Forensic Medicine of the Royal College of Pathologists of Australasia 2016
- Fellow of the Royal College of Physicians of London 2017
- Licentiate of the British Institute of Professional Photography 2017
- Member of the Royal College of Pathologists (Medical Examiner) 2019
- Honorary Fellow of the College of Forensic Pathologists of Sri Lanka 2022

- Diploma in the Management of the Dead 2023

EMPLOYMENT HISTORY & POSTS HELD

- Consultant Forensic Physician & Specialist in Forensic & Legal Medicine
- External Examiner – Postgraduate Institute of Medicine, Colombo, Sri Lanka 2022
- Associate Editor-in-Chief – Forensic Science Research 2020-
- Lead Medical Examiner – Norfolk & Norwich University Hospitals NHS Trust 2019-
- Honorary Clinical Professor – William Harvey Institute, Queen Mary University of London 2018-
- Honorary Professor of Forensic Medicine – University of Belgrade, Serbia 2017-
- Medical Adviser – Firearms & Explosives Licencing – Surrey and Sussex Police 2017-
- Member of the Small Business Division Committee of the Chartered Society of Forensic Scientists 2017-2020
- President - Faculty of Forensic & Legal Medicine (Royal College of Physicians) 2015-2017
- Honorary Consultant - Emergency Medicine, St Georges Hospital, London 2014-2017
- President – World Police Medical Officers 2011-2014
- Honorary Clinical Senior Lecturer – Cameron Forensic Medical Sciences, BLSMD, University of London 2006-2018
- Examiner for the Diploma in the Forensic & Clinical Aspects of Sexual Assault (Society of Apothecaries) 2009-2012
- Extern Examiner – University College, Dublin 2015-2018
- Examiner – Barts & The London School of Medicine & Dentistry 2006-2018
- David Jenkins Chair of Forensic & Legal Medicine, Faculty of Forensic & Legal Medicine 2009-2010
- Vice-President (Forensic Medicine) Faculty of Forensic & Legal Medicine 2006-2010
- Forensic Medical Examiner: Metropolitan Police Service 1990- 2021
- External Adviser to the National Injuries Database & the National Crime Agency 2004-
- Specialist & Lead Assessor – Council for Registration of Forensic Practitioners 2006-2009
- Endoscopist/gastroenterologist, Queensway Surgery, Southend-on- Sea 1994-2015
- Editor – Current Medical Literature – Clinical Nutrition 1992-2004
- Editor-in-Chief – Journal of Forensic & Legal Medicine 1994-2019
- Director – Forensic Healthcare Services Ltd 1999-
- Registrar - Accident & Emergency Medicine, Whipps Cross Hospital 1991
- Research Fellow - Gastroenterology & Nutrition, Central Middlesex Hospital 1986-1990
- Registrar - General Surgery, Vascular Surgery, Thoracic Surgery Whittington & Royal Free Hospitals 1985-1986
- Registrar - General Surgery, Orthopaedics, Westminster Hospital, London 1984
- Registrar - General Surgery, Southend & Rochford Hospitals, Essex 1983
- Senior House Officer - Accident & Emergency, Princess Margaret Hospital, Swindon & Queen Mary Hospital, Roehampton 1982-83
- Anatomy Lecturer, London Hospital Medical College 1981-1982
- House Surgeon & House Physician, The London Hospital & Oldchurch Hospital 1980

MEMBERSHIP OF COMMITTEES & CONSULTATION GROUPS

- Chair of the Scientific Advisory Committee on the Medical Implications of Less-Lethal Weapons 2021-
- Member – Family Justice Medical Experts Working Group – Regional Committee – South Eastern Circuit (N) 2021
- Member – Conducted Energy Device Working Group – Faculty of Forensic & Legal Medicine 2020-21
- Chair – New Models of Care Working Group – Faculty of Forensic & Legal Medicine 2018-
- Member of the National TASER© Stakeholder Advisory Group 2018-21

- Member and UK Forensic & Legal Medicine representative for the European Union of Medical Specialists 2018-
- Member of Consensus Group for the Revision of the Istanbul Protocol 2017-2022
- Member of Consensus Group for Geneva Guidelines on Less-Lethal Weapons and Related Equipment 2018-19
- Member of the Small Business Division Committee of the Chartered Society of Forensic Scientists 2017-19
- Member of Executive Committee – European Council of Legal Medicine 2017-
- Member of the Specialty Advisory Committee on Forensic & Legal Medicine (JRCPTB) 2016-
- Member of the Scientific Advisory Committee on the Medical Implications of Less-Lethal Weapons 2012-2021
- Member of the International Forensic Expert Group of the International Rehabilitation Council for Victims of Torture 2010-
- Member of Council – Academy of Medical Royal Colleges 2016-17
- Member of Council – Royal College of Physicians, London 2015-17
- Member of Expert Group for European Commission assisting the European Commission with an in-depth review of medical examination requirements for trafficked individuals 2014-16
- Member of Expert Group for European Commission assisting the European Commission with an in-depth review of Council Regulation (EC) No 1236/2005 concerning the trade in certain goods which could be used for capital punishment, torture, or other cruel, inhuman or degrading treatment or punishment 2012-13
- Member of Council of Canadian Academies Expert Panel on Conducted Energy Devices 2012-13

AWARDS

- Minty Prize for best medicolegal book – 2003
Forensic Medicine: Clinical & Pathological Aspects
- Minty Prize for best medicolegal book – 2005
Encyclopedia of Forensic & Legal Medicine
- David Jenkins Chair of Forensic & Legal Medicine, Faculty of Forensic & Legal Medicine 2008-2009
- Highly Commended – BMA Annual Book Awards – 2018 Monitoring Detention, Custody, Torture and Ill-treatment
- Honorary Fellowship of the College of Forensic Pathologists, Sri Lanka - 2022

CLINICAL, LEADERSHIP & RESEARCH EXPERIENCE

Although working outside a formal academic setting I have consistently developed, lead, undertaken and published a wide range of research in a number of areas including forensic medicine and science, clinical nutrition and gastroenterology since the mid 1980s. My current **research interests** are predominantly related to healthcare in custody, death investigation, restraint techniques, including Taser® and irritant spray, excited delirium, evidential sampling, restraint deaths, death and harm in custody, spithoods, hospital referrals, complaints against healthcare professionals, Medical Examiner roles, stalking in forensic medicine and the quality of recording and imaging of injuries. I have particular interests in the disproportionate application of use of force techniques on specific groups and vulnerable individuals. I am Chair of the **UK Scientific Advisory Committee on the Medical Implications of Less-Lethal Weapons**.

I have a broad-based clinical background embracing clinical and research work in a wide range of specialties. I am an active clinician and for 30 + years have seen up to 1500-2000 patients per annum in a variety of settings, generally custodial. I assessed > 70,000 patients within custodial settings as a **Forensic Medical Examiner** (forensic physician) for the Metropolitan Police Service jurisdiction in London, UK from ~ 1990- 2021.

I have worked with a wide variety of colleagues and have been medical lead for **research studies** with organisations such as the Metropolitan Police Service and the Independent Office of Police Conduct (formerly the Independent Police Complaints Commission).

My research group has undertaken and continues to undertake national Freedom of Information studies on police custodial healthcare services, complaints against healthcare professionals, use of force and use of imaging in the forensic setting. We are currently undertaking a study on stalking in forensic medicine.

I have been continuously involved in teaching and education in a number of settings. I was appointed **Honorary Clinical Professor – William Harvey Institute, Queen Mary University of London in 2018**. This continued on a role as Honorary Senior Lecturer at Cameron Forensic Medical Sciences (based at the William Harvey Institute) in which I had been in post since 2006. In this setting I have been responsible for the majority of Clinical Forensic Medicine teaching on subjects such as Acute Behavioural Disturbance and Mental Health Issues, Introduction to Clinical Forensic Medicine, Forensic Assessment of Complainants & Suspects of Sexual Assault, Injury Documentation and Interpretation, Torture & Cruel, Inhuman & Degrading Treatment. Over this period I have supervised several dozen MSc dissertations for students on the **MSc in Forensic Medical Sciences** course and similarly supervised, advised and mentored substantial amounts of other work for pre- and post-graduate students of Queen Mary University of London, such as those on SSC and clinical forensic medicine modules. I am author of one of the modules for the **MSc in Violence Reduction and the Safer Management of Persons in Care or Custody**. Further information about my academic and research output may be found here

<https://www.researchgate.net/profile/John-Payne-James/scores> and here

<https://pubmed.ncbi.nlm.nih.gov/?term=payne-james+j> and here

<https://orcid.org/0000-0002-3713-8922>

I am frequently asked to investigate **circumstances of death**. This may be in a variety of settings including the hospital and community, in places of detention both in the UK and overseas. I work closely on such cases with forensic pathologists, forensic scientists and others, and may be instructed by law-enforcement organisations, families, coroners and regulatory bodies. I have particular interests in **miscarriages of justice** and have reviewed a variety of cases where forensic science or medical issues have been challenged in the UK and overseas.

I was **President of the Faculty of Forensic & Legal Medicine** (from 2015-2017) of the Royal College of Physicians, and, with colleagues initiated and prepared a bid for recognition of Forensic & Legal Medicine as a defined medical specialty. That process is currently underway. During my Presidency the Faculty was accepted as full member of the Academy of Medical Royal Colleges and established a Specialty Advisory Committee on Forensic & Legal Medicine at the JRCPTB. I developed a strategy of consensus working, building strong links with relevant bodies including other medical faculties and Colleges, and organisations, bodies or individuals such as the Chartered Society of Forensic Sciences, the Forensic Science Regulator, the Home Office and Her Majesty's Inspectorates. I was also **President of the World Police Medical Officers** from 2011-2014.

I was **Editor-in-Chief** of the Journal of Forensic & Legal Medicine for > 20 years and subsequently Consultant Editor-in-Chief until December 2019. I initiated and led its development as a peer-reviewed, significant international journal of forensic medicine and science.

I have worked closely with the Forensic Science Regulator to raise standards in forensic medicine and forensic science. I have undertaken hundreds of physical examinations of individuals making allegations of previous **torture, cruel, inhuman and degrading treatment**, in the context of non-recent and more recent complaints. These have been interpreted according to the Manual on the Effective Investigation and Documentation of Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment (the 'Istanbul Protocol'), a subject on which I have taught in lectures and workshops in the UK and abroad. I have contributed to, and provided all body diagrams for the **2nd edition of the Istanbul Protocol** which is published in June 2022. I am a **Member of the International Forensic Expert Group** of the International Rehabilitation Council for Victims of torture

I have provided evidence to the Baha Mousa, Al-Sweady and Sheku Bayoh Public Inquiries in the UK.

I was appointed **Lead Medical Examiner** to the Norfolk & Norwich University Hospital NHS Trust in 2019 and have led the establishment of a Medical Examiner Service to review all hospital and community deaths, working closely with mortuary, bereavement and morbidity and mortality teams (amongst others), and externally HM Coroner and Registration office. The Medical Examiner role was established by the Coroners & Justice Act 2009. The Medical Examiner Service which I lead reviews approximately 3000 deaths per annum. I led this Service throughout the COVID-19 pandemic and have managed the increased workload related to COVID-19 deaths. The Service has reviewed ~12000 deaths to date. I have initiated and co-edited the first textbook on the **Medical Examiner Service in England & Wales** which was published in October 2022, and we have an ongoing research program about our role.

I established a **Forensic Medical Examiner quarterly audit meeting** in 2011 which ran for 10 years in London. This acted as a focus for clinical practitioners from across London, and welcomed diverse speakers from a range of backgrounds including science and the law.

I have given expert opinion for a wide variety of bodies overseas and have given live evidence or produced written reports for a variety of jurisdictions and courts including Kenya, Ireland, Scotland, Spain, Malta Channel Islands, Hong Kong, Mexico, Eire, New Zealand, Gibraltar, India, USA and the Turks and Caicos Islands.

PUBLICATIONS

Books & Chapters

I am co-editor/author of:

- 1) **Payne-James JJ.** Involvement of the next of kin in the management of the dead. Dissertation for the Diploma of Management of the Dead – April 2023
- 2) **Payne-James JJ.** Principles of Age Estimation in the Living. In: Payne-James JJ, Byard RW. Forensic & Legal Medicine: Clinical & Pathological Aspects (eds). Taylor & Francis 2023
- 3) **Payne-James JJ.** Non-fatal strangulation. In: Payne-James JJ, Byard RW. Forensic & Legal Medicine: Clinical & Pathological Aspects (eds). Taylor & Francis 2023
- 4) Gall JA, **Payne-James JJ.** Self-injury. In: Payne-James JJ, Byard RW. Forensic & Legal Medicine: Clinical & Pathological Aspects (eds). Taylor & Francis 2023
- 5) **Payne-James JJ.** Injury Documentation and Assessment. In: Payne-James JJ, Byard RW. Forensic & Legal Medicine: Clinical & Pathological Aspects (eds). Taylor & Francis 2023

- Evidence Recovery – series of lectures and training programmes to Philippines National Police and National Bureau of Investigation, Manila, 2019
- Calm Down! Non-lethal toxins used in global and UK law enforcement. Weaponised Toxicology in Policing & Warfare Seminar, 2019

The following short items appeared in the **Continuing Education Photoquiz Feature of General Practitioner Magazine:**

Saphena Varix	Basal Cell Carcinoma
Fungating Carcinoma of the Breast	Frostbite
Parotid Sialocele	Sigmoid Volvulus
Mucocoele of the Gall Bladder	Scaphoid Fracture
Osteogenesis Imperfecta	Ischiorectal Abscess
Crohn's Disease	Pancreatitis
Appendicitis	Lymphocoele
Jaundice	Fractured femoral neck
Breast carcinoma	Cirrhosis
Cholelithiasis	Arterial embolus
Achalasia	Buerger's Disease

CONTINUING PROFESSIONAL DEVELOPMENT

Examples include: Editorship of the Journal of Forensic & Legal Medicine; attendance at every Faculty annual meeting since 2006; attendance at every International Association of Forensic Sciences meetings since 2004. Level 3 Safeguarding training. Medical Examiner training. ILS Training. Equality and diversity training. I am regularly Appraised. I was revalidated in March 2017.

AUDIT

I developed and organised 3 monthly audit meetings with other forensic physicians reviewing cases and published papers. Successfully run for > 8 years. Research into healthcare issues in police custody, incapacitant sprays, death scene assessment and provision of healthcare services. Each result in changes to service to reduce risk.

TEACHING & TRAINING EXPERIENCE

Wide experience in teaching to undergraduate and postgraduate students to MSc levels. Supervisor of MSc dissertations. Examiner for University of London Masters candidates and former Examiner at the Society of Apothecaries, for the Diploma of Forensic & Clinical Aspects of Sexual Assault.

Lecture and teachers to multi-professional groups including other healthcare professionals, police and others.

BUSINESS MANAGEMENT & EXPERIENCE

Have established and directed two companies (Forensic Healthcare Services Ltd and formerly Greenwich Medical Media Ltd). Was on the Steering Group that established and set up the Faculty of Forensic & Legal Medicine, closely involved in the initial funding bid and writing the business plan.

I am a Director of Forensic Healthcare Services Ltd.

I was President of the Faculty of Forensic & Legal Medicine for 2015-2017. I was responsible for all strategy, management and administration of the Faculty. I remained on the Board until 2019.

PROCEDURES

I have examined over ~ 70,000 patients within the police and prison and related settings. I have undertaken over 2000 expert medical reports at the request of assorted bodies such as defence lawyers, police, Crown Prosecution Service, Independent Police Complaints Commission, coroners and the Prison & Probation Ombudsman. Until 2014 I had an active upper gastrointestinal endoscopy practice undertaking > 500 procedures per annum.

ADDITIONAL ACTIVITIES

- Presenter – Channel 5 series – Autopsy 2015-17
- Presenter – documentary on ‘Britain’s Unknown Serial Killer (for C+I Channel/Time) 2017
- UK Representative – Workshop on Excited Delirium Syndrome (US National Institute of
- Board Member of Faculty of Forensic & Legal Medicine 2006-
- Association of Chief Police Officers/Royal College of Psychiatrists Liaison Committee 2006-10

Examples of Consultations and Advice in Reports & Inquiries

- Member of the Council of Canadian Academies Panel for the Report The Health Effects of Conducted Energy Weapons. The Expert Panel on the Medical and Physiological Impacts of Conducted Energy Weapons. 2013
- Member of international report – Special Panel Review of Excited Delirium 2012
- Expert Witness to the Baha Mousa Public Inquiry 2010
(http://www.bahamousainquiry.org/linkedfiles/baha_mousa/module_4/expert_witnesses/jpj/miv008902.pdf)
- Home Office Scientific Development Branch. Ebling D, Thomas G. Review of life signs monitoring in custody cells: the cell occupancy monitoring system produced by COSATT 2008
(http://www.learningthelessons.org.uk/life_signs_monitoring_cells_review.pdf)
- Standards on Use of Section 136 of the Mental Health Act 1983 (amended 2007). Version for England only. Report of a multi-agency group led by the Royal College of Psychiatrists
(<http://www.rcpsych.ac.uk/files/pdfversion/CR149.pdf>)
- Clinical Review in Report by the Prison Ombudsman for Northern Ireland into the circumstances surrounding the death of David Michael Kincaid in Magilligan Prison on 25th September 2007
- DOMILL/ACPO Medical Management of Taser Guidance 2008

I have co-authored guidelines for the Faculty of Forensic & Legal Medicine including: Head Injury Advice Leaflet for custody officers, gaolers & detention officers; Recommendations: Safe and Secure Administration of Medication in Police Custody; Irritant Spray; Choking; Taser and Do Not Resuscitate management,

AREAS of WORK

My work generally embraces some or all of clinical, research, writing, teaching and court attendance.

Forensic & Medicolegal

I am currently one of four General Medical Council recognised specialists in forensic & legal medicine in the UK. I am a forensic physician and was a Senior Forensic Medical Examiner to the Metropolitan Police Service and City of London Police between 1990-2008. I remain clinically active as a forensic physician with the Metropolitan Police Service and as a consultant to assorted bodies. In this role I have been responsible for the general medical care and forensic assessment of adult and child detainees in police custody, which included suspects of crime and the assessment of restraint and use of force injuries such as those from police batons, handcuffs, irritant sprays, Tasers and Excited Delirium Syndrome. I see adult and child complainants of crime. I undertake the medical care and forensic assessment of complainants of crime and those detained under terrorist legislation. This work had elements of both primary care, mental health and forensic assessment. I have assessed many adult and child victims of alleged torture and am familiar with and teach on aspects of the Istanbul and Minnesota Protocols.

Clinical forensic medicine requires knowledge within the areas of alcohol and drug misuse, effects of restraint, mental health law, assault and injury (including assessment, diagnosis, treatment and prognosis), pathology of injury, occupational health, child abuse and sexual assault.

I am instructed and appear in court regularly as an expert witness for prosecution or defence in most of these areas. I have been involved in reviews of a number of cases of death in police and prison custody for (amongst others), the IOPC, the Prison & Probation Ombudsman, & the Prison Ombudsman of Northern Ireland. Such work may involve physical examination, photographic examination, review of evidence (eg video, DVD, CD, Body Worn Video) and production of full reports incorporating such material.

I am external Consultant to the National Injuries Database and the National Crime Agency.

I appear regularly in court at all levels – from magistrates court to the Court of Appeal. I appear in courts across England, Wales and Scotland and other international jurisdictions. I was Lead & Specialist Assessor for the Council for the Registration of Forensic Practitioners until its dissolution in March 2009.

I have been closely involved in research that has studied complaints against healthcare professionals, mental health, alcohol misuse, drug misuse, mental health, HIV prevalence, violence and treatment of individuals in police custody – including near misses and deaths in custody (with the Independent Police Complaints Commission), police assault and restraint injuries. I submit research work to relevant meetings nationally and around the world. I frequently work, teach and educate doctors, healthcare personnel and others on a worldwide basis. I have been responsible at various times for the medical training in deaths and care in custody to all new custody officers working within the Metropolitan Police Service and continue to teach on aspects of healthcare of detainees.

I have a specific interest in near-misses and deaths in custody and have reviewed, from a medical point of view, many deaths and serious incidents in police or prison custody and numerous near-miss incidents. Reviews have been on behalf of a number of agencies including the IPCC, PPO, coroners, police forces and families. I have been involved in the review of a number of miscarriages of justice in the UK and overseas.

I was closely involved in the establishment and development of the Faculty of Forensic & Legal Medicine of the Royal College of Physicians. I was elected to serve as the first Vice-President (Forensic Medicine). I was President from 2015-2017.

I was elected as President of the World Police Medical Officers in 2011 until 2014, and following a successful meeting in 2014 have been responsible with my successor of replacing this with the International Association of Clinical Forensic Medicine, which had its inaugural meeting at the 2018 International Association of Forensic Sciences in Toronto.

Clinical Nutrition

I was Nutrition Team Leader at the Central Middlesex Hospital between 1986 and 1990 where I developed my clinical and research interests in all aspects of clinical nutrition. I have undertaken research in substrates, delivery and metabolism of enteral and parenteral nutrition. I have been involved in teaching and education at national and international level in parenteral, enteral and home nutrition. I have published widely in these fields. I was founder and co-editor of the secondary reference journal – Current Medical Literature – Clinical Nutrition.

As external medical consultant to a number of organisations my responsibilities have included staff education/training, production of clinical expert reports, regulatory process, assessment of research projects, strategic advice and medical advice. My role involved teaching, education to both company personnel and to healthcare professionals in Europe, America and Asia. I still have particular interests in raising awareness of the need for nutrition support and delivery of such therapies.

Gastroenterology

I was an endoscopist/gastroenterologist to Queensway Surgery - a general practice in Southend-on-Sea in Essex from 1992-2014. I have undertaken diagnostic endoscopy and gastroenterology consultations. I spent 4 years full time as a clinical Research Fellow at the Department of Gastroenterology and Nutrition at the Central Middlesex Hospital between 1986 and 1990. I hold the EC Specialist Certificate in Gastroenterology.

Other

I was founding director of Greenwich Medical Media Ltd, a publishing company specialising in medical and healthcare subjects. GMM published books and journals for a wide variety of audiences including lay individuals. The company was sold to Cambridge University Press in 2003. With others I established a company – Forensic Healthcare Services Ltd (www.forensic-healthcare.com) – a company providing expert witnesses for the criminal and civil systems and other bodies, and which can provide training in these areas. This company, (Managing Director – Judy Payne-James) is also a source of accredited mediators.

Techniques & Devices

Palliation of Malignant Dysphagia

This is a technique described by myself and colleagues for the palliation of malignant dysphagia secondary to neoplasms of the stomach and oesophagus (Ethanol-induced Tumour Necrosis - ETN). It is of particular use in patients with inoperable and/or irresectable tumours and those patients with tumour recurrence at anastomosis following surgery, and it appears to be as good as laserpalliation.

Grasping Forceps

I designed and developed endoscopic forceps for tube and foreign body manipulation which are in commercial production (CMH Graspers - Georg Pauldrach).

Post-operative Gastric Aspiration/Feeding Tube

I designed and developed a double-lumen post-operative tube which allows simultaneous gastric aspiration and intraduodenal/jejunal administration of feed. (Corpak USA).

Percutaneous endoscopic gastrostomy/jejunostomy tube

In conjunction with clinicians in the USA I developed a jejunostomy conversion of a PEG (Bower PEJ - Corpak USA)

ForensiGraph® & ForensiBag® & OOHBag® & ForensiDoc®

I have developed a range of colour scales for use in the forensic setting to allow size and colour comparison. The ForensiGraph is now widely used in forensic settings. With Cathy Cooke I have developed a single-use bag for the administration of single medication doses in secure settings and for out of hours services. ForensiDoc® is an App designed for immediate healthcare assessment and evidence collection.

Writing

I have extensive experience in the production of medical scientific papers for peer-reviewed journals, meeting reports, journal editing, book editing, chapter and book authorship and industrial report writing for statutory bodies, professionals and for lay persons (see **Publications** for further details).

Media

I have written, co-written, presented, produced and/or directed a number of videos on medical themes in broadcast and available on online media – example titles are shown below:

- The Role of the Medical Examiner in England & Wales
- Female Genital Mutilation
- Medical Implications of Restraint
- Death in Short Term Custody
- Honour Crime
- Injury Documentation
- Completing a Medical Certificate of Cause of Death
- Percutaneous Endoscopic Gastrostomy (for E Merck)
- Palliation of Malignant Dysphagia by Ethanol-induced Tumour Necrosis Enterol Nutrition (for Clintec Nutrition)
- Parenteral Nutrition (for Clintec Nutrition)
- Enteral Feeding Tubes: pernasal insertion and care (for E Merck) Risk Management in Intravenous Therapy (for Viggo-Spectramed)
- Putting Parenteral Nutrition into Practice (for Clintec Nutrition) (BMA 1997 Certificate of Educational Merit)
- Nutritional Assessment (for Clintec Nutrition)

I have substantial experience in broadcast media and have scripted, appeared in, or presented a range of programmes and films ([Jason Payne-James - IMDb](#))
