Clinical Skills & Surgical Expertise

I have extensive experience in management of Ophthalmology conditions in children and adults. I have completed ASTO in Oculoplastics (Warrington Hospital), Cornea and External Eye Disease (St Paul's Eye Unit, Liverpool) and an Anterior Segment and Refractive Surgery fellowship (Moorfields Eye Hospital, London).

My surgical expertise includes surgical and laser management of ametropia (refractive errors). I have performed over 1000 cases of Excimer refractive corrections (LASEK, LASIK, i-LASIK, SMILE) and have also been involved in the management of complicated refractive cases. My other surgical experience includes routine and complicated cataract surgery, premium lens implantation and post laser refractive surgery lens operation. I have performed over 300 corneal transplantations (PK, DALK and DSEK) and over 1000 lid procedures (including ectropion/entropion repairs, BCC excisions +/- reconstructions, adults and children ptosis surgery). I am also very experienced in management of common ophthalmic condition such as glaucoma, medical retina and ocular emergencies both in children and adults.

Medico-Legal Experience

I have been writing Medico-Legal reports since 2011. I produce on average 20 to 30 reports a year and my claimant:defendant work ratio is approximately 60:40.

I subscribe to the Medico-Legal Magazine and have attended several Medico-Legal courses in the past. The last workshop which I had attended was the Medico-Legal Skills Course held at Imperial College London in October 2019.
