### **Consultant Oral and Maxillofacial Surgeon**

My NHS practice is based at [University Hospitals Birmingham NHS Foundation Trust](#). I work between the [Queen Elizabeth Hospital, Birmingham](#) and [Solihull Hospital, Solihull](#) where my practice encompasses a broad remit of general Oral and Maxillofacial Surgery. I have subspecialty interests in the management of skin cancer and temporomandibular joint (TMJ) surgery. I am a member of the skin cancer multidisciplinary team (MDT) at Solihull Hospital and have a clear margin rate of 99% for non-melanoma skin cancer. My TMJ practice encompasses alloplastic joint replacement and arthroscopy, the latter being delivered via an honorary contract with [Sandwell and West Birmingham Hospitals NHS Trust](#). My private practice is based at [The Westbourne Centre in Edgbaston](#), [The Priory Hospital in Edgbaston](#), [Spire Parkway Hospital in Solihull](#) and [HCA The Harborne Hospital in Edgbaston](#).

### **Honorary Senior Clinical Lecturer**

I am an Honorary Senior Clinical Lecturer at the [College of Medical and Dental Sciences at the University of Birmingham](#), where I am module lead for Human Disease in the undergraduate dental degree. I am also a PAT tutor, SATu and OSCE examiner for medical undergraduates. I am also an External Examiner for both the [University of Bristol](#) and the [University of Sheffield](#).

## Personal interests

---

During my time at university, I published a weekly opinion column in *The Malta Independent* newspaper, as well as periodical publications in the accompanying Sunday supplement, *First Sunday* magazine. Since then, I have written a number of short stories and submitted them for national competitions.

I am an avid guitarist (lead and fretless bass) and previously worked as a session musician with various recording studios in Malta, as well as giving live performances including the MADC production of *Chicago* at the Manoel Theatre, a televised performance at the *First of May 2004 Welcome to Europe* celebrations and supporting band for Elton John's concert in Malta.

Growing up in the centre of the Mediterranean gave me an active interest in different cultures and languages. I speak English, Maltese, Italian, basic French and German and colloquial Farsi (Modern Persian). I have keen interests in post-structuralist philosophy, modern art and early modern history, in particular the history of the Crusades and the Knights of St John.

In the little spare time remaining, I practice Ashtanga Vinyasa yoga and mindfulness meditation and have recently begun riding lessons at Ingestre Stables in Staffordshire on a regular basis

## Personal statement

---

I pride myself on being a multi-faceted surgeon who would aim to compliment any team I form part of. I have very high standards for myself and placed first in both my undergraduate degrees, being awarded most prestigiously the Chancellor's Prize by the University of Birmingham, awarded annually to a student who has demonstrated outstanding academic performance and progress and contributed to the general life of the university. I constantly strive to maintain these standards in my surgery and beyond.

I have a strong interest in Medical Education and training, holding a post-graduate degree in this area with published research and an Honorary Senior Clinical Lecturer post with curriculum planning responsibilities. My research interests include virtual learning environment (VLE) development, decision-making tools for frontline staff and the place of character ethics in postgraduate surgical training. I have tried to be engaged with my specialty at every level, through academic publishing and presenting, trainee representation and committee membership, as well as examining and interviewing the next generation of surgeons.

During my higher training I secured Training Interface Group (TIG) Fellowships in Reconstructive & Aesthetic Surgery in Nottingham, UK and the Management of Skin Cancer in Leeds, UK. More recently I have developed skills in minimally invasive technique for temporomandibular disorders (TMJ arthroscopy) and have recently begun providing level 2 arthroscopy. I am one of a handful of surgeons in the United Kingdom providing total alloplastic joint replacements for the temporomandibular joint and a Full Member of the European Society of TMJ Surgeons.
