**Medicolegal Experience:**

- Medicolegal practice defending doctors and acting for patients (claimants and defendants).
- I have received training in the preparation of medicolegal reports and in appearing in Court as a Medical Expert.
- I have previous experience in preparing medicolegal reports relating to urological disorders and problems.
- I am very experienced surgeon with a good academic background, and in addition have war surgery experience from my time in Afghanistan.

**Areas of Interest:**

Working as a Consultant Urological Surgeon in one of the largest and busiest NHS Hospitals in the UK has led to an enormous experience in urology. I am happy to review a wide variety of urological cases. In particular, I have experience relating to the following:

- Kidney and ureteric stones. Experience of high volume, routine and complex major kidney stone surgery
- Lower urinary tract symptoms
- Prostate and testicular pain
- All scrotal lumps
- Vasectomy
- Erectile Dysfunction
- Recurrent urinary tract infections in both men and women
