eturtontherapy@gmail.com

Employment History

Independent Practice

I have provided assessment reports and given evidence in the crown and magistrate court in relation to a number of murder, violence, extradition, and sexual offences cases. I have also provided assessments of the impact of extradition on partners with mental health difficulties, in addition to conducting child protection assessments

My areas of expertise include:

Neuropsychology assessments (cognitive deficits, intellectual functioning, learning disability, acquired brain injury, chronic alcohol use)

Autism Spectrum Disorder

ADHD

Suggestibility and Compliance

Personality Assessment

Post Traumatic Disorder

Depression and anxiety

Mental Health including dual diagnosis

Malingering

Risk of sexual and or violent offending (using risk assessment tools such as the HCR-20, Stable and acute)

Stalking risk assessment (including risk assessment using the stalking risk profile)
