Medicolegal Practice & Experience

MA (Health Care Law and Ethics) – Manchester University

- Thorough grounding in law relating to negligence, as well as relevant legal tests and case law
- Graduated with Merit

General Medical Council Fitness to Practice Panellist 2003-2013

- Regular training on medical law and case law from GMC Legal and external solicitors and barristers
- Training and experience in judging standard of care and threshold for breaches
- Experience in judging cases typically involving conflicting expert witness evidence (giving valuable experience in observing which expert witness styles are more helpful and which can lead to issues for the legal teams)

Member of the Oxford Medico-Legal Society

- Regular lecture series, alternating medical and legal speakers

Expert witness reporting since 2014

- Claimant and Respondent instructions (ratio around 50:50)
- Clinical negligence and personal injury
- Approximately 40 reports per year
- Clinic availability within 2 months for clinical assessments
- Regular CPD and update training including from TMLEP and Bond Solon
