

PAUL KIDMAN BDS MJDF RCS CUBS

Dentist General Practice

GDC No. 73034

PROFILE

I provide an empathic, gentle and professional approach to dentistry with over 27 years' experience treating adults and children of all ages in private practice and previously within the NHS.

I completed the Cardiff University Bond Solon Expert Witness Civil Certificate in 2023. I feel these continuing years of experience can be put to further good use assisting patients and dentists needing advice and facing legal challenges.

Within my general practice I focus on providing comprehensive, ethical and predictable dentistry to maintain healthy teeth and gums creating a functional dentition for life.

I am also Denplan Excel accredited and have regular assessments to maintain this standard. I have an ongoing investment in postgraduate education from leading educators in the UK and worldwide.
