Private Psychiatry experience:

Bromley Psychiatry Limited

I undertake assessments and treatment for people with mental disorders who are private fee paying patients.

In this role, I also undertake report writing for solicitors (law firms), parole boards, courts and other organisations to address assessment, treatment and recommendations for people with mental health issues.

Berkeley Psychiatrists (40%- working 2 days per week)

I have worked as a consultant psychiatrist at Berkeley Psychiatrists, London since May 2022. My main role is to see fee paying outpatients who seek private assessment and treatment for mental health difficulties outside the National Health Services in the UK. I have experience of conducting outpatient clinics both by video-consultations as well as face to face.

In the last 1 year, I have managed over 1000 outpatients seeking assessment and treatments for

- Attention deficit and hyperactivity disorder
- Autism Spectrum disorder
- Mood disorders including bipolar affective, depressive, various anxiety disorders and OCD
- Psychosis that include schizophrenia, schizoaffective and persistent delusional disorder
- Adjustment disorder
- Complex PTSD
- Personality disorders

I have received excellent feedbacks and reviews from my outpatients, which are displayed on the website of Berkeley Psychiatrists.

Psychiatry UK

I have worked with this organisation, which is the second biggest healthcare service provider for mental health assessment and treatment after the National Health Service (NHS) in the UK since October 2022. My main role is to see outpatients who seek private assessment and treatment as fee paying outpatients or under the Right to choose (RTC) scheme in the UK. In the last 7 to 8 months, I have managed hundreds of outpatients who present with various mental health disorders seeking assessment and treatment.
