Medico-legal reports

Report writing since 2004.

Approximately 100 reports annually.

60:40 Claimant: Defendant, personal injury and clinical negligence.

Court attendance

I have served as an expert witness in Civil, Crown, and Coroner's Courts.

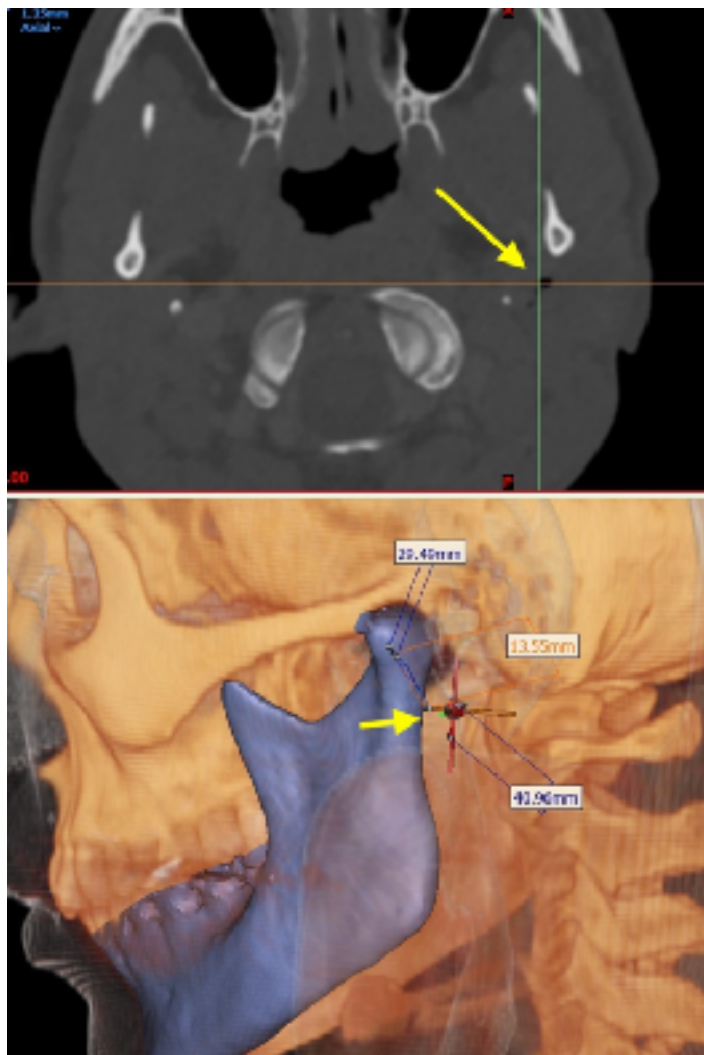

Speciality expertise

Surgical head and neck oncology.

Facial trauma.

General oral & maxillofacial surgery.

I have additional expertise in the 3D reconstruction of CT imaging in particular which provides crucial insights into the surgical treatment planning process and the assessment of sustained injuries.

A defendant argued that the claimant's facial paralysis injuries were caused by broken glass. However, a 3D CT soft tissue and bone analysis revealed an entry point and gas bubble consistent with the path of a knife wound, indicating the severing of the facial nerve.
