SUMMARY

Chartered Consultant Clinical Neuropsychologist with over twelve years' experience across inpatient, outpatient, and community settings within both National Health Service (NHS) and private sectors. I have provided neuropsychological expertise in the highly regarded multidisciplinary Brain Injury Clinic at the National Hospital for Neurology and Neurosurgery, Queen Square. My qualifications include a Distinction in the Qualification in Clinical Neuropsychology, representing the highest level of accreditation for clinicians practising in neuropsychology in the United Kingdom. I possess a strong record of academic publication, having authored several peer-reviewed research papers. I provide high-quality expert reports in civil cases, including brain injury, personal injury, clinical negligence, capacity, and psychological distress. Further certificated expert witness and medicolegal training through Bond Solon ensures a thorough understanding of Civil Law and Procedure, report writing, and courtroom skills including cross-examination.
