Medicolegal Work Experience

I have been working in the field of injury assessment and report writing for the last 19 years.

I qualified from the University of Punjab Lahore in 1988 obtaining the qualification MBBS. My postgraduate qualifications include FRCS, Fellow of the Royal College of Surgeons of Edinburgh in Oct.1999 and Diploma in Orthopaedic Medicine in 2012.

I passed ATLS Trauma course from McMaster University Hamilton, Canada. I attended AO basic and AO advance Orthopaedic courses in Switzerland and Poland respectively. I also passed medicolegal training and report writing course from Bond Solon Legal Training Company. I am registered as an independent medical examiner with MEDCO. I regularly attend CPD courses to keep myself updated in this field.

All the above courses and being an active member of Trauma and Orthopedic Team at a busy NHS hospital in North Wales, enhanced my knowledge and understanding to evaluate injuries caused by the road traffic accidents, Trips/falls and injuries at work. I undertake Orthopaedic examinations of cases of moderate complexity involving upper limbs, lower limbs, thoraco-lumbar spine, hips/knees/ankles. All my medico-legal practice in Trauma & Orthopaedics is indemnified.

Defendant to Claimant ratio = 70% : 20% , Joint statement/report 10%
