

DR JULIAN LEINER-PARRY

BDS, Dip Imp Dent (RCSEd)

PROFILE

I am very passionate about dentistry, and have worked hard to develop a special interest in implants, anxious patients and sedation. I have become confident in providing a wide range of treatments, including high-end crown, bridge and veneer work.

I spend most of my week placing and restoring implants at three different practices. I carry out a range of bone and sinus augmentation procedures, including harvesting bone, tacking large membranes and lateral sinus lifts. I also provide IV sedation for adults and I especially enjoy working with anxious patients and helping them to feel at ease.

I also mentor on the Implant masters program at the ICE Academy (accredited by the University of Salford).

PERSONAL

Originally from the Alps in Germany, I grew up in England and speak fluent English and German. I have a wife and one year old son, and like to play tennis and swim in my free time. I also volunteer for the Confidential hotline.
