## PERSONAL INFORMATION

---

**Address:** Lancashire based

**Nationality:** British

**Gender:** Male

**Marital Status:** Married

**Email:** [Info@samermorgan.com](mailto:Info@samermorgan.com)

**GMC No:** 5185320  
Full registration with licence to practice  
Recent revalidation: Feb 2015

**Date on the Specialist Register (CCT):** 18/10/2012

**Website:** [www.samermorgan.com](http://www.samermorgan.com)

**Secretary Details:** Virtual Admin UK  
Tel: 01503261788 option 2  
[smorgan@virtualadminuk.co.uk](mailto:smorgan@virtualadminuk.co.uk)

**Venues for Medico Legal Clinics:** Birmingham, Blackburn, Bolton, Bradford, Bristol, Carlisle, Central London, Coventry, Doncaster, Exeter, Ilford, Lancaster, Leeds, Luton, Manchester, Plymouth, Preston, Prescott, Sheffield, St Helens, Sutton, Warrington, Wigan.

## **EXPERIENCE AND SCOPE OF PRACTICE**

---

I am a Consultant Orthopaedic Surgeon working in a large trauma unit in a Teaching Hospital. I cover all aspects of trauma, including upper and lower limbs. I have a specialist interest in lower limb trauma, including hip, knee, and ankle trauma. However, I manage all aspects of orthopaedic trauma. My job plan includes trauma on-call for orthopaedics, covering all orthopaedic trauma. I have a regular operating trauma list covering all general and specialist trauma and a regular weekly fracture clinic managing all orthopaedic trauma.

My training included a trauma fellowship at Leeds General Infirmary, a major trauma centre and one of the largest trauma units in Europe. Additionally, I completed a Foot and Ankle fellowship at Leeds Teaching Hospitals, an arthroplasty fellowship at Derriford University Hospital, and a Paediatric Orthopaedics fellowship at Manchester Children's Hospital.

I am a dedicated, highly motivated and conscientious Surgeon. I received training in all aspects of Orthopaedic Surgery, working in major teaching and district general hospitals.

My initial surgical training included the Yorkshire Surgical Training Scheme, after which I became a Member of The Royal College of Surgeons of Edinburgh and Glasgow in 2001. I then accepted a Research Fellowship in Orthopaedics and Trauma at Wrightington Hospital, where I attained an MSc in Health Sciences. I completed training in Orthopaedics, subsequently obtaining the Intercollegiate Specialty Examination in Trauma and Orthopaedics (FRCS Tr&Orth). I was then privileged to be admitted to the Specialist Register for Trauma and Orthopaedics at the GMC (General Medical Council) on 18 October 2012.

I have a keen interest in research and have published and presented numerous papers in the UK and worldwide. I am the author of three chapters in the Step by Step Operative Orthopaedic Book.

Teaching is an important part of my career, and I enjoy passing on my knowledge and skills to junior colleagues. I hope to continue to develop my skills in this area and look forward to playing an active part in a Teaching Programme.

I recognise the importance of being able to manage and lead in all situations, and through experience, I have undertaken activities to develop competent leadership and management skills. I also have a clear understanding of the value of teamwork and am able to communicate clearly and be receptive to the knowledge and opinions of others. I enjoy working in a multidisciplinary team and have good working relationships with patients and colleagues.

I am a member of the following specialist societies: the British Orthopaedic Foot and Ankle Society and the British Orthopaedic Association.

My aim as a Consultant Orthopaedic Surgeon is to offer a service that reflects current thinking and best medical practice in Orthopaedic Surgery, and most importantly, to respond to the needs of the local community.

## MEDICOLEGAL PRACTICE

---

I work as a full-time Orthopaedic Consultant in a busy hospital, which helps me maintain my skills and knowledge in Trauma and Orthopaedics. I have an active interest in general orthopaedic trauma, foot and ankle, and lower limb arthroplasty. I am widely published in peer-reviewed journals on all aspects of Orthopaedics and Trauma.

I have been preparing medical reports for over 15 years.

I continue to undertake active research in Trauma and Orthopaedics, providing opinions based on data research and analysis. I have conducted research in low-velocity impacts and have a thorough understanding of their effect on musculoskeletal injury.

I see clients at a number of venues at the request of the instructing parties. Most appointments are arranged within two weeks, urgent appointments can be accommodated, and evening and home visits can be arranged. All reports are completed within five to ten working days, with urgent reports available if needed. I am happy to discuss cases to clarify medical issues.

### **I provide medico-legal reports on various types of incidents, including:**

- Road traffic accidents
- Industrial and work-related accidents
- Slips and trips
- Low-velocity injuries
- Negligence reports

I prepare both claimant and defendant reports (ratio 75/25).

I report on all groups of claimants, including children, adults, the elderly, and cases involving spinal, pelvic, upper, and lower limb trauma.

**Medicolegal courses:**      **Bond Solon Certified Part 1**  
**Medicolegal Annual Conferences, Premex**  
**Medco Accreditation**  
**BMJ medicolegal seminars.**

ICO registered  
Medco No: DME4955

## **INJURIES COVERED**

---

Being a Consultant Orthopaedic Surgeon working within a large Trauma Unit, part of the on-call team for General Trauma, have a regular trauma operating list covering general and specialist orthopaedic trauma and run a regular Fracture Clinic managing general and specialist orthopaedic trauma, I can review and undertake the completion of Medicolegal Reports for include all general orthopaedic trauma as listed below.

- Upper limb trauma
  - Shoulder
  - Elbow
  - Wrist
  - Hand
- Lower limb trauma
  - Hip
  - Knee
  - Foot
  - Ankle
- Whiplash injury
- Back injury

## **EDUCATION AND QUALIFICATIONS**

---

<b>FRCS (Tr&amp;Orth)</b> Royal College of Surgeons, Edinburgh	Nov 2010
<b>MSc Clinical Studies and Health Sciences</b> Central Lancashire University	Jul 2009
<b>Certificate of Completion of Basic Surgical Training</b> Royal College of Surgeons, Edinburgh	Jun 2003
<b>MRCS (Edinburgh)</b> Royal College of Surgeons, Edinburgh	Dec 2001
<b>MRCS (Glasgow)</b> Royal College of Surgeons, Glasgow	Dec 2001
<b>PLAB Part 1</b> London	Sep 1998
<b>PLAB Part 2</b> London	Dec 1998
<b>IELTS</b> Alexandria, Egypt Overall score – 7.5	Apr 1997
<b>MBBCh</b> University of Cairo, Egypt	Dec 1994

## **PROFESSIONAL MEMBERSHIPS**

---

British Orthopaedic Foot and Ankle Association	2009
British Orthopaedic Association	2009
British Medical Association	2008

## **CURRENT POSITION**

---

### **Consultant Trauma and Orthopaedics**

**June 2015 to date**

St Helens and Knowsley Teaching Hospitals NHS Trust  
now known as Mersey and West Lancashire Teaching Hospitals NHS Trust

## **CAREER HISTORY**

---

### **Consultant Trauma and Orthopaedics**

**Dec 2014 – May 2015**

South Tyneside District Hospital

### **Locum Consultant Trauma and Orthopaedics**

**Jun 2013 – Dec 2014**

North Cumbria University Hospitals

### **Arthroplasty Fellowship**

**Feb 2013 – May 2013**

Derriford University Hospital

### **Senior SpR/Trauma Fellow**

**Oct 2012 – Feb 2013**

Leeds Teaching Hospitals  
Under Supervision of Mr N Harris and Prof P Giannoudis

### **Paediatric Orthopaedic Fellowship**

**Oct 2011 – Sep 2012**

Royal Manchester Children's Hospital  
Paediatric Surgery under the supervision of M Zenios and Mr Khan

### **Specialist Registrar - Southwest London Rotation (LAT)**

**Oct 2010 – Oct 2011**

South West London Rotation

### **Foot and Ankle Fellowship**

**Jan 2009 – Oct 2010**

Western Sussex Hospitals

### **Fellowship, Foot and Ankle Surgery**

**Jan 2008 – Jan 2009**

Leeds Teaching Hospitals  
Under Supervision of Mr N Harris

### **Specialist Registrar on the Mersey Rotation (FTTA)**

**Oct 2005 – Jan 2008**

St. Helens and Knowsley Hospitals, Merseyside  
Under the supervision of Mr Teanby and Mr Jago

**Honorary Research Fellow, Trauma and Orthopaedics** **Sep 2005 – Oct 2005**  
Wrightington Hospital, Wigan  
Under the supervision of Mr Ghambir and Mr Murali

This was an honorary post to complete my MSc modules and I was involved in research projects on:

- Relation between knee alignment and outcome in knee arthroplasty
- Outcome of silastic implant of the big toe in treatment of hallux rigidus.

**Specialist Registrar on the Yorkshire Rotation (LAT)** **Mar 2005 – Sep 2005**  
Harrogate District Hospital, Yorkshire Rotation Under the supervision of Mr. Venkat

**Clinical Research Fellow, Trauma and Orthopaedics** **Sep 2003 – Mar 2005**  
Wrightington Hospital, Wigan under the supervision of Mr A Gambhir

This was a research post with clinical duties at Senior House Officer level as part of my MSc in Clinical Studies and Health Sciences at the University of Central Lancashire. I was involved in an audit on compliance to prescription policy of Arixtra in patients with fracture neck of femur.

**Registrar, Trauma and Orthopaedics** **Feb 2003 – Sep 2003**  
Trafford General Hospital, Manchester  
Under the supervision of Mr Ayekolye

**Clinical Fellow, Trauma, Paediatric and Knee Surgery** **Aug 2002 – Feb 2003**  
Leeds General Infirmary  
Under the supervision of Mr Calder and Mr P Templeton

**Basic Surgical Rotation** **Feb 2000 – Aug 2003**  
Yorkshire Basic Surgical Rotation Scheme

***Free Standing Senior House Officer Posts***

**Senior House Officer, Trauma and Orthopaedics** **Aug 1999 – Feb 2000**  
Diana, Princess of Wales Hospital, Grimsby Under the supervision of Mr Roberts

**Senior House Officer, Spinal Injuries** **Feb 1999 – Aug 1999**  
Southern General Hospital, Glasgow  
Under the supervision of Mr Fraser

**Clinical Observer****Sep 1997 – Jan 1999**

Diana Princess of Wales Hospital, Grimsby

Under the supervision of Mr Samy (Sep 1997 - Jan 1998)

Mr Knight (Jan 1998 - Apr 1998) and Mr Shweikh (May 1998 - Jan 1999)

**Senior House Officer, Accident and Emergency****Nov 1996 – Aug 1997**

Al-Nozha International Hospital, Cairo, Egypt

Under the supervision of Mr Khalid

**Senior House Officer, Accident and Emergency****Mar 1996 – Oct 1996**

Al-Giar Hospital, Cairo, Egypt

Under the supervision of Mr Mohammed

**House Officer****Mar 1995 – Feb 1996**

Cairo University Hospital, Cairo, Egypt

## RESEARCH EXPERIENCE

---

- 2021      **The effectiveness of foot school in foot and ankle surgery, Whiston Hospital 2021**  
**Role:** Initiation of the project
- 2014      **Investigating Morton's Neuroma in Clinical Practice: Ultrasound versus MRI Scan**  
**Role:** Initiation of the project  
Acting as a Supervising Consultant
- 2013      **Diagnosis and Management of Cuneiform Fractures**  
**Role:** Initiation, data collection, analysis and writing of the report  
Supervising Consultant: Prof. Peter Giannoudis
- 2012      **'Supracondylar Fracture in Children - Early versus Late Intervention'**  
**Role:** Data collection and analysis  
Supervising Consultant: Mr. Henry, Consultant Paediatric Surgeon
- 2011      **'Minimally Invasive Chevron Osteotomy'**  
Worthing and Southland Hospitals, West Sussex  
**Role:** Initiation, data collection and writing the report  
**Outcome:** Study showed no significant difference in functional and radiological outcome between the minimally invasive and open groups. Formal randomised controlled trial is required to validate our findings
- 2011      **'Minimally Invasive and Open Cheilectomy in Management of Hallux Rigidus'**  
Worthing and Southland Hospital, West Sussex  
**Role:** Initiation, data collection and writing the report  
**Outcome:** Minimally invasive surgery and open procedures are effective in treatment of grade I and II hallux rigidus. No statistical difference between procedures.
- 2010      **'Oblique Shortening Osteotomy of Lesser Metatarsals'**  
Worthing and Southland Hospitals, West Sussex  
**Role:** Initiation, data collection and writing the report  
**Outcome:** Satisfactory functional outcome and patients' satisfaction
- 2008      **'Functional and Radiological Outcome of Ankle Evolution System (AES) Total Ankle Replacement - Four to Six Year Follow Up'. Leeds Teaching Hospitals**  
**Role:** Initiation, data collection and writing the report

- Outcome:** Satisfactory functional outcome with 95% survival at six years
- 2006      **‘Randomised Controlled Trial Comparing Oral Pregabalin versus Placebo in Patients Suffering from Sciatica’**  
Southport Hospital  
**Role:** Obtaining ethical approval  
**Outcome:** Pregabalin is effective in treating patients with sciatica
- 2006      **‘Intra-Articular Injection of Steroids and Local Anaesthetic in Management of Sacroiliac Joint Dysfunction – A Randomised Controlled Trial’**  
Southport Hospital  
**Role:** Data collection  
**Outcome:** Steroids and local anaesthetic injection is more effective in managing sacroiliac joint dysfunction than physiotherapy alone
- 2005      **‘Outcome of Preservation Uni-compartmental Knee Replacement – Early Experience of 25 Knees’**  
St. Helens and Knowsley Hospitals, Merseyside  
**Role:** Initiation, data collection and writing the report  
**Outcome:** Satisfactory functional outcome with 98% survival
- 2004      **‘Coronal Alignment and Its Effect on Survival in Total Knee Replacement’**  
Wrightington Hospital, Wigan  
**Role:** Initiation, data collection, analysis and writing the report  
**Outcome:** No relation between coronal alignment and survival in knee arthroplasty
- 2003/  
2004      **‘Clinical, Radiological and Biomechanical Outcome of Silastic Implant of the Big Toe’**  
Wrightington Hospital, Wigan  
**Role:** Obtaining ethical approval, data collection and writing the report  
**Outcome:** Satisfactory functional outcome but increased rate of osteolysis

---

- Jun 2021      The role of foot school in Foot and Ankle Surgery EFORT June 2020
- Jun 2018      Management of Ankle fractures according to BOA guidelines EFORT meeting, 2018
- Jun 2016      USS guided injection of Morton's neuroma BOA, Birmingham, 2016
- Jun 2015      Investigating the Diagnosis of Morton's Neuroma: MRI versus US EFORT meeting, Prague 2015
- Mar 2013      Percutaneous Chevron Osteotomy; Description of New Technique and 2 Years Follow Up versus Standard Open Technique Presented at AAOS meeting, Chicago
- Nov 2012      Minimally Invasive Cheilectomy: Functional Outcome and Comparison with Open Cheilectomy. Morgan S, Palmer S. Presented at the SICOT meeting, Dubai
- Nov 2012      Minimally Invasive Chevron Osteotomy: Functional Outcome and comparison with Standard Chevron Osteotomy. Morgan S, Roushd I, Palmer S. Presented at the SICOT meeting, Dubai
- Nov 2012      Basal Osteotomy in Management of Hallux Valgus. Morgan S, Jarvis A. Presented at the SICOT meeting, Dubai
- Nov 2012      Oblique Shortening Osteotomy of the Lesser Metatarsal: A New Technique. Morgan S, Jarvis A. Presented at the SICOT meeting, Dubai

- Nov 2012 Outcome of the Preservation Uni-compartmental Knee Replacement. Presented at the SICOT meeting, Dubai
- Feb 2012 Minimally Invasive Chevron Osteotomy: Functional Outcome and comparison with Standard Chevron Osteotomy. Morgan S, Roushd I, Palmer S. Presented at the American Academy of Orthopaedic Association (A A O S), San Francisco
- Nov 2011 Minimally Invasive Cheilectomy: Functional Outcome and Comparison with Open Cheilectomy. Morgan S, Palmer S. Presented at the BOFAS meeting, Old Windsor, UK
- Nov 2011 Minimally Invasive Chevron Osteotomy: Functional Outcome and Comparison with Standard Chevron Osteotomy. Morgan S, Roushd I, Palmer S
- Nov 2011 Silastic Implant in the Management of Hallux Rigidus: Eight Years Follow Up. Morgan S, Clough T. Presented at the BOFAS meeting, Old Windsor, UK
- Jun 2011 Basal Osteotomy in Management of Hallux Valgus. Morgan S, Jarvis A. Presented at EFORT meeting, Denmark
- Jun 2011 Oblique Shortening Osteotomy of the Lesser Metatarsal: A New Technique. Morgan S, Jarvis A. Presented at EFORT meeting, Denmark
- May 2011 Minimally Invasive Cheilectomy; Functional Outcome and Comparison with Open Cheilectomy. Morgan S, Jones C, Palmer S. Presented at GRECMIP, Bruges
- Nov 2010 Oblique Shortening Osteotomy of Lesser Metatarsals: A New Technique. Presented at British Orthopaedic Foot and Ankle Society (BOFAS). Annual Conference, Nottingham
- Jun 2010 Low Intensity Pulsed Ultrasound in the Treatment of Established Non-unions. Presented at EFORT Meeting, Madrid, Spain
- Jun 2010 Surgeon Administered Regional Blocks for Day Case Forefoot Surgery. Presented at EFORT Meeting, Madrid, Spain

- Sep 2009 AES Total Ankle Replacement: Four to Six Years Follow Up. Presented at British Orthopaedic Association (BOA) Annual Conference, Manchester
- Jun 2009 Pain Management Following Shoulder Arthroscopic Subacromial Decompression. Presented at EFFORT, Vienna, Austria
- May 2009 Management of fractures of 5th MT base. Presented at British Trauma Society, Newcastle
- Nov 2008 AES Total Ankle Replacement: Four to Six Years Follow Up. Presented at British Orthopaedic Foot and Ankle Society (BOFAS). Annual Conference, Liverpool
- Jun 2007 'Sacroiliac Joint Dysfunction, Back Pain and Road Traffic Accidents: - Have We Met Before?'. Presented at Society of Back Pain Research, Helsinki, Finland
- Jun 2007 'An Unreported Presentation of Sarcoidosis - Back Pain and Spondylolisthesis'. Presented at Society of Back Pain Research, Helsinki, Finland
- May 2007 Long-Term Outcome of Silastic Implant Prosthesis in Treatment of Hallux Rigidus. Presented at EFFORT, Florence, Italy
- Sep 2006 Long-Term Outcome of Silastic Implant Prosthesis in Treatment of Hallux Rigidus. Presented at British Orthopaedic Association, Glasgow
- Oct 2006 Audit on Laminar Flow use in Orthopaedic Surgery; Elective versus Trauma. Accepted for presentation at Hospital Infection Society Meeting, Amsterdam
- Sep 2005 Post-operative Alignment in Primary Knee Arthroplasty Surgery; A. Predictive index for Long Term Survival. Presented at SICOT 2005, Istanbul, Turkey
- Sep 2005 Proximal Fourth Metatarsal Stress Fracture in a Child; A Case Report and Review of the Literature. Presented at SICOT 2005, Istanbul, Turkey
- Sep 2005 A Rare Case of Open Fracture of Talus with Ipsilateral Tibial plafond Fracture. Presented at SICOT 2005, Istanbul, Turkey

- Jun 2005 Proximal Fourth Metatarsal Stress Fracture in a Child; A Case Report and Review of the Literature. Presented at EFORT 2005, Lisbon, Portugal
- Jun 2005 Post-operative Alignment in Primary Knee Arthroplasty Surgery; a Predictive Index for Long Term Survival. Presented at EFORT 2005, Lisbon, Portugal
- Dec 2003 Post-operative Alignment in Primary Knee Arthroplasty Surgery; a Predictive Index for Long Term Survival. Presented at Indian Orthopaedic Association, Madras, India
- Sep 2003 Post-Operative Alignment in Primary Knee Arthroplasty Surgery; A Predictive Index for Long Term Survival. Presented at British Orthopaedic Association Annual Conference, Birmingham
- Jun 2003 The Hydroxyapatite Coated Furlong Hip; Outcomes in Patients under the Age of 55. Presented at EFORT 2003, Helsinki, Finland

## **CONTINUING PROFESSIONAL DEVELOPMENT**

---

Continuing professional development is a vital part of my career as it allows me to keep up to date with advances in my speciality. I actively participate in Mersey Regional Teaching Programmes and Journal Clubs and have attended numerous courses and conferences, both national and international, including the British Orthopaedic Foot and Ankle Society Annual Conference, British Orthopaedic Association Annual Conference, EFORT, British Trauma Society Meeting and American Academy of Orthopaedic Surgeons (AAOS).

## **DEVELOPMENT COURSES ATTENDED**

---

May 24.	Management of foot and ankle conditions using minimally invasive techniques Solihull , Arthrex
Jun 2021	Webinar on Management of the Talus Osteochondral Defects, Chaired by Dr Van Dijk and Mr Van Dam
Jul 2020	Webinar on Ankle Fractures.
Nov 2020	Webinar on Management of Tendo Achilles Rupture.
Mar 2019	Inbone Total Ankle Replacement, Keel University
Jun 2018	Arthrex foot and ankle course, Germany
Dec 2017	Setting up and running a virtual fracture clinic, Manchester, UK
Sep 2017	Cadence total ankle replacement, Wrightington, UK
May 2017	Minimally Invasive foot and ankle surgery, Munich, Germany
Feb 2015	Infinity Total Ankle Replacement Course, Keel University, UK
Nov 2014	Visited Schnol Clinic, Bayern, Munich, to learn the AMIC Technique in Management of OCD
Jun 2014	Hull Deformity Correction Course, Hull Royal Infirmary
May 2014	ATLS Course, North Cumbria University Hospital
Feb 2014	Hintegra Total Ankle Replacement Course, New Deal, Edinburgh

May 2013 Total Hip Arthroplasty Course,  
De-Puy Synthes Institute

Apr 2013 Total Knee Arthroplasty Course,  
De-Puy Synthes Institute

Jan 2013 Management of Poly-trauma Patients Beyond ATLS,  
University of Leeds, UK

Oct 2012 5th Master Class on Long Bone Non-unions; Current Aspect of Management.  
University of Leeds, UK

Feb 2012 Management of Chronic Ankle Pain, Instructional Course at the AAOS Moscone  
Centre,  
San Francisco, California

Aug 2011 Teaching the Teachers Course,  
London

May 2011 MIS Foot and Ankle Cadaveric Course, Amien,  
France

Oct 2010 Oxford FRCS Course,  
Nuffield Hospital, London

Sep 2010 Paediatric Orthopaedic Course, Alder Hey Hospital, Royal London Hospital and  
King's College Hospital,  
London

Sep 2010 Hand Course,  
Wrightington Hospital, Wigan

Apr 2010 Oswestry FRCS Orthopaedics Course, Robert Jones and Agnes Hunt Hospital,  
Oswestry

Jan 2009 Advanced Trauma Life Support,  
St James' University Hospital, Leeds

Jul 2008 Bone Tumours,  
Royal National Orthopaedic Hospital, Birmingham

Dec 2007 Foot and Ankle Surgery,  
Robert Jones and Agnes Hunt Hospital, Oswestry

Oct 2007 Basic Science in Orthopaedics,  
Royal National Orthopaedic Hospital, Stanmore

Aug 2006 International Instructional Trauma Course,  
Edinburgh

Nov 2004 Knee Arthroplasty Course,  
Royal National Orthopaedic Hospital, Stanmore

May 2003 Basic Arthroscopy Course,  
Royal National Orthopaedic Hospital, Stanmore

Jul 2002 AO Basic Course,  
Leeds University

May 2002 External Fixation Course,  
Royal College of Surgeons of England

Jan 2000 Advanced Trauma, Life Support,  
Leeds Teaching Hospitals, Harrogate

Oct 1999 Basic Surgical Skills Course,  
Royal College of Surgeons of England, Chesterfield

Aug 1999 Child Protection Course,  
Diana, Princess of Wales Hospital, Grimsby

Jul 1999 Early Trauma and Critically Ill Care,  
Royal College of Surgeons of Edinburgh

Feb 1998 Basic and Advanced Life Support,  
Diana, Princess of Wales Hospital, Grimsby

## CLINICAL AUDIT

---

As a key aspect of Clinical Governance, I appreciate the role of Audit in ensuring patient safety and the highest quality of care. I have been involved in the following: I am the audit lead at my local hospital.

- July 2024.     **Morton’s neuroma management in the general practice**  
Whiston Hospital
- Mar 2021     **Audit on the Role of Specialised Tendo Achilles clinics in the Management of Achilles Tendon Rupture**  
Whiston Hospital
- Jun 2020     **Audit on the Role of foot school in Management of Foot and Ankle Surgery**  
Whiston Hospital
- May 2019     **Re-audit on ankle Fracture Management**  
Whiston Hospital
- Sep 2018     **Ankle Arthroscopy**  
Whiston Hospital
- May 2017     **Management of Hallux Valgus**  
Whiston Hospital
- Aug 2016     **Ankle Fracture Management**  
Whiston Hospital
- Aug 2015     **Compliance with theatre protocol**  
Whiston Hospital
- Nov 2014     **Coding for Fracture Neck of Femur**

 Dewsbury Hospital, Yorkshire  
**Role:** Data collection  
**Outcome:** Compliance to Ottawa rules resulted in decrease in the number of x-rays for patients presenting with ankle injury

## **TEACHING EXPERIENCE**

---

I have been an avid teacher ever since my postgraduate days. I attended a “Teaching the Teacher” course in London.

I am involved in teaching and assessing Medical Students. This involves both non-clinical tutorial sessions and also ward-based clinical teaching during the student’s attachment to the Orthopaedic Department.

I regularly teach junior doctors preparing for the membership examination. This teaching incorporates objective structured clinical examination and communication skills practice.

As a Consultant, I regularly conduct formal teaching sessions as part of the teaching program for junior doctors.

I have initiated and organised a Departmental Teaching Programme for junior doctors at The Royal Manchester Children and Southport Hospitals.

I lectured at the International Arthroplasty Conference in Sharm El-Sheikh.

I regularly conduct formal and informal teaching at the bedside, outpatients, Accident and Emergency and theatre, utilising lectures, case presentations, clinical sessions, journal clubs, workshops and audits.

I lectured at the British Society of Rheumatology and Leeds University in January on reconstructive foot surgery.

I lectured on Basic Surgical Training and Orthopaedic Regional Teaching at Mersey Deanery.

I teach regularly in formal courses, (Most recent one-foot osteotomy course, Whiston Hospital, Feb 2019).

## **LEADERSHIP AND MANAGEMENT EXPERIENCE**

---

I recognise the importance of being able to manage and lead in all situations, and through experience, I have undertaken activities to develop competent leadership and management skills. I am experienced at managing a heavy workload and prioritising effectively and have undertaken the following activities:

- Audit lead at Whiston and St. Helens Hospitals NHS Trust
- In charge of organising the junior doctor's induction program
- Diabetic foot lead at St. Helens and Knowsley Teaching Hospitals

## **IT SKILLS**

I am competent and work confidently with general computing tasks, including word processing, PowerPoint presentations and database compilation using Access and Excel. Having undertaken statistics modules, I confidently carry out statistical analysis using SPSS.

I am also proficient in using different photo and video editing software packages and regularly use PubMed, Medline and Athens for accessing medical literature. I also intend to take the European Computer Driving Licence in the near future.

## **PERSONAL INTERESTS**

---

I have a keen interest in music and play the drums. I am also skilled in digital imaging and video editing and enjoy this very much. I also enjoy sport, particularly: swimming, running, cycling and skateboarding.

I participated in the Great Manchester Run, raising funds for the Royal Manchester Children's Hospital.
