Expert Witness Profile

Dr Terence McLoughlin MBChB, FRCEM, FRSM, AFPM is a practising Consultant in Emergency Medicine at the Royal Liverpool University Hospital, having held a substantive Consultant appointment since 2018. He holds several senior clinical, academic and research leadership appointments, including President of the Emergency & Disaster (Military) Medicine Council at the Royal Society of Medicine. He is actively involved in national and international clinical research, serving as Principal Investigator across multiple clinical trials.

He established his independent medico-legal practice in 2022, including clinical negligence reporting, and has since completed over 280 independent expert reports across civil, criminal, and coronial proceedings.

He holds the Cardiff University Bond Solon Civil Expert Witness Certificate and has experience of court attendance, expert discussions, and preparation of joint statements. He prepares all reports personally and recognises his overriding duty to the Court under CPR Part 35 and CrimPR Part 19.
