Online Consultations

We offer online consultations through video conferencing platforms. Consulting with your client online enables us to analyse their scarring in detail, providing a much clearer understanding than still photographs typically allow. Additionally, we can answer any questions they may have about skin camouflage and provide guidance on various application techniques once suitable products have been recommended.

Our Skin Camouflage Expert Reports can be prepared and supported by any previous Medical Reports, all Part 35 Compliant.

Skin Camouflage Consultancy Ltd has built a strong reputation providing over 2500 Medico-Legal Reports for Solicitors and Insurance companies all over the country. I have been providing Personal Injury and Clinical Negligence Reports since 2018 with approximately 50% due to Medical negligence. The majority of my Reports are Condition and Prognosis Reports, however I am able to provide Breach of Duty Reports providing it falls within the realm of my expertise. I have never had to give evidence in Court, however prepared to do so if necessary.

Ratio: Claimant 70% Defendant 25% Joint 5%

Working alongside Val Ross, I had attended clinics with Val between 2013-2016 gaining clinical experience run by Changing Faces Organisation. I have been holding my own clinics at Harley Street for over 7 years. I am a fully trained practitioner licensed at Harley Street, London running and managing clinics in Rodney Street, Liverpool.

As a Skin Camouflage Consultant and practitioner, I specialize in skin concealment techniques, combining my expertise with make-up artistry to enhance symmetry and balance. I can recreate features like freckles and eyebrows, as well as contour, shade, and highlight areas as needed.

With over 10 years of experience, I stay up to date with the latest specialized products, which are recognized as medical and psychological aids. My product range is listed in the British National Formulary and is endorsed by the British Association of Dermatologists and the British Association of Plastic & Reconstructive Surgeons.

Skin Camouflage creams are highly pigmented and specially formulated products that can help the impact of scarring and other skin conditions. They have the capability to be made water resistant and are formulated to adhere to smooth scar tissue. The products are all hypoallergenic and fragrance free.

I provide support and guidance in skin camouflage applications and techniques to men, women and children who have a range of disfigurements i.e. scars, skin graft tissue, burns, pigmentation, etc. Skin Camouflage can provide significant impact in the assistance of rehabilitation where negative self-image from disfigurement can aggravate psychological damage. Any part of the face, body, limbs may be treated with a topical non-invasive procedure. It can greatly assist in improving confidence and self-esteem. The treating of the visually apparent aspects of the disfigurement can assist in the psycho-social issues faced by trauma injury clients.

I am trained in Medical Micropigmentation and non-surgical treatments such as Medical Needling and Chemical Peels. I offer long-term solutions for scarring, reducing scars by up to 80% and creating smoother skin. I also provide Areola restoration, using creative techniques to help build confidence. Medical Needling treats scars and various skin conditions. I assess each individual to determine the suitability of these procedures and provide cost estimates, as alternatives to or in addition to Skin Camouflage Creams.
