## PROFESSIONAL SUMMARY

Animal behaviourist, expert witness, and international educator with extensive experience assessing and rehabilitating animals with significant behaviour problems. Committed to improving professional practice in animal behaviour therapy, public education in animal behaviour, and improving animal welfare worldwide.

## WORK HISTORY

2019 - Present

### ***Animal Behaviourist and Business Owner***

- Conducting behavioural assessments of dogs and cats, and developing targeted training and behaviour modification and enrichment programs to address problematic behaviours and meet welfare needs.
- Communicating with referring parties and coaching owners to implement training independently.
- Mentoring individuals looking to begin working with animals to help them build their understanding of behaviour and animal welfare.
- Assessment of dogs for schools, local authorities, and foster/adoption agencies.
- Expert assessment of dogs for legal cases involving dangerous dog and animal welfare legislation. Providing in-depth behavioural reports compliant with Part 35 of the Civil Procedure Rules when required.

2022 - Present

### ***Director, Brain and Behaviour Academy***

- Organising conferences including securing speakers, managing venue logistics, attracting sponsorships, and coordinating ticketing operations.
- Developing bespoke educational content for animal behaviour and training professionals, including live webinars and self-paced courses.
- Co-ordinating and conducting guest webinars and interviews with leading animal behaviour researchers and practitioners.

2023 - 2026

### ***Volunteer Behaviourist, Spirit of the Dog Rescue***

- Served as a member of the wellbeing team, providing behavioural assessments and supporting rehoming decisions for dogs in the rescue's care.
- Providing behavioural support to adopters to help dogs transition into new homes.
