Honorary Clinical Associate Professor	Liverpool University	Undergraduate and Postgraduate Medicine	29/07/2021	Current	Part-time

---

## Medico-Legal Experience

---

**Inspire MediLaw** Membership 2023-

**Inspire MediLaw** Expert Witness Training Certificate, Oxford, April 2023

I deal with clinical negligence and personal injury in Ophthalmology, with particular clinical interest within the fields of Uveitis, Medical Retina, Ophthalmology in the context of Systemic Medicine and Neuro-Ophthalmology.

I regularly prepare CPR Part 35-compliant expert witness reports for clinical negligence cases, which have included matters involving delayed diagnosis or treatment of uveitis and scleritis, retinal and neuro-ophthalmic disease, drug- and biologic-related ocular toxicity, systemic disease manifestations in the eye, and visual prognosis and functional impact (including driving and occupational implications). My instructions include screening opinions, full liability and causation reports, and condition-and-prognosis assessments for both claimant and defendant firms, and I am experienced in working with large clinical bundles, multidisciplinary records and complex timelines to provide clear, balanced and evidence-based opinions to the Court.

---

## Leadership and Management Roles

---

### Current:

**Section Editor (Uveitis)** EYE Journal 2022-Present  
**Associate Editor (Medical Ophthalmology)** BMJ Open 2024-Present
