

Psychiatric Expert: NEWA CV

Psychiatric Expert Ltd

The Gold Standard in Medico-Legal Evidence

Psychiatry | Psychology | Personal Injury | Clinical Negligence | Mental Capacity

Psychiatric Expert is a specialist national provider of independent expert witness services in psychiatry, psychology and related medico-legal disciplines for personal injury, clinical negligence and other medico-legal claims. Our panel includes consultant psychiatrists, psychologists, child and adolescent psychiatrists, and specialist expertise in neuropsychiatry, enabling careful expert matching across a wide range of adult, adolescent and child cases.

We support solicitors, barristers, insurers and the courts in cases involving psychiatric injury, trauma, PTSD, condition and prognosis, complex causation, fitness to work, mental state at the time of the incident, capacity-related issues and the overlap between psychiatric, psychological, neurological and physical presentation. Through a carefully matched national panel, structured triage and rigorous quality assurance, Psychiatric Expert provides independent, legally useful evidence in cases where mental health issues are central to the matters in dispute.

Areas of Expertise

Psychiatric Expert is regularly instructed in personal injury, clinical negligence, serious injury, mental capacity and wider medico-legal matters involving psychiatric injury and complex mental health presentation.

Areas of expertise include adult psychiatry, psychology, child and adolescent psychiatry, and neuropsychiatry, with instructions in cases involving PTSD, trauma, anxiety, depression, mood disorder, psychosis, personality disorder, substance misuse, dementia, learning disability, ADHD, insomnia, schizophrenia, bipolar disorder, OCD, brain injury-related psychiatric issues, domestic violence, complex trauma, mental capacity, Court of Protection matters and fitness to work. Assessments may address causation, diagnosis, prognosis, treatment recommendations, functional impact, disability and the interaction between psychiatric presentation, physical injury, pain, neurological injury and recovery.

Psychiatric Expert offers UK-wide coverage through a specialist national panel, with remote and in-person assessments available depending on the needs of the case. We provide independent expert evidence for claimant, defendant and single joint expert instructions, with a consistent focus on clarity, proportionality, predictable delivery and compliance with CPR Part 35 and PD 35.
