## **Summary**

I am a senior Emergency Medicine consultant with extensive experience in clinical leadership, education, pre-hospital care, advanced trauma care, quality improvement, medicolegal and clinical governance.

I have strong credentials in delivering operation success and departmental reform. Specialist interests include clinical governance, strategic digital health innovation and patient flow technology.

Commercial experience in digital healthcare procurement, compliance, and interfacing.

# Medicolegal experience

I have been working in medicolegal practice for the last 10 years. I have been instructed by representation of both claimants and defendants. I have experience in clinical negligence reporting for breach of duty and causation for adult and paediatric emergency care as well as pre-hospital and major trauma injury and illness. I have experience in personal injury reporting including whiplash injury. I have supplied reports principally for the UK Courts, but also for courts in Republic of Ireland.

Registered Faculty of Expert Witnesses (FEW)
