FRCGP, DCH, MBBS

Portfolio General Practitioner | GP Expert Witness | GPwSI Paediatrics

---

GMC Registration: 4214977

MDU Membership: 290409E

---

## Professional Profile

I am an experienced General Practitioner with over 25 years of clinical experience in Primary Care, Paediatrics, Safeguarding, and Private Practice. I am a Fellow of the Royal College of General Practitioners (FRCGP) and hold a Diploma in Child Health (DCH).

My career has included roles as GP Partner, Salaried GP, Portfolio GP, GPwSI Paediatrics, and Private GP. I have extensive paediatric experience gained through posts at Great Ormond Street Hospital and Chelsea & Westminster Hospital.

My areas of expertise include child health, paediatric allergy, preventative medicine, safeguarding, chronic disease management, and early diagnosis. As a former Primary Care Child Safeguarding Lead, I have extensive experience in risk assessment, multidisciplinary working, clinical governance, and healthcare standards.

I hold leadership roles within the Royal College of General Practitioners and the Local Medical Committee and am actively involved in mentoring, supervision, appraisal, and education.

I previously served on an Expert Witness Panel and have a longstanding interest in medico-legal practice. I am skilled in medical records review, independent medical assessment, evidence-based analysis, and the preparation of clear, balanced, and impartial expert opinions. My areas of medico-legal expertise include General Practice, Paediatrics, Child Health, Safeguarding, Clinical Negligence, Personal Injury, Breach of Duty, Causation, Condition and Prognosis Reporting, and Medico-Legal Opinion.

I am scheduled to undertake Bond Solon's *Report Writing for Expert Witnesses* course in June 2026 and the *Excellence in Medico-Legal Report Writing* course in September 2026 as part of my ongoing professional development in expert witness practice.

---
