Teaching/ training

Part time tutor in University College Cork medical school
Teaching of Fellowship Urgent care medicine candidates RCSI

Involvement in Clinical Governance committees and clinical lead positions in former posts
and have managed clinical complaints for the group.
Completion of a large number of medical examinations reports for the Personal Injuries
Assessment Board.

Current practice

Urgent care clinical practice includes the assessment and treatment of acute and non-acute
medical conditions and some general practice work. I have been involved in the training and
supervision of Fellowship students on site, and run the Resuscitation clinical skills drills. I
participate in regular in-house training and in clinical audit. Appointed by the Irish Courts, I
have carried out Capacity Assessments on Ward of Court persons, in line with the
introduction of the new Capacity Act.

Relevant skills

Experienced in a broad range of medical disciplines
Good communicator and writer
Strong interest in legal and forensic medicine.
